 TRUSTEES GREELEY FARM.

His Honor, Mayor Hall,

James Barnard,

James F. Wallace.

Mayor Hall's Inaugural.

Delivered in the Court Room, City Hall Building, Monday,
January 2d, 1893.

GENTLEMEN OF THE CITY COUNCILS: In accordance with the city charter we have met here today to organize a city government for the ensuing year. Having taken the oath of office prescribed by law, we are now qualified to administer the affairs of the municipality. It is my duty at this time to make such suggestions briefly as have seemed to me worthy.

I will first call your attention to the subject of

FINANCE.

Through the courtesy of City Clerk E. M. Bowman I learn that the city debt Jan. 1, 1893, is as follow:

Funded debt, bonds and notes.....	\$339,000 00
Floating debt, time notes.....	225,000 00
Sundry bills, unpaid (estimated).....	30,000 00
	<hr/>
	\$594,000 00

ASSETS.

Uncollected taxes, 1892.....	\$23,608 04
Cash in treasury.....	14,107 98
	<hr/>
	\$37,716 02
Total net debt as above.....	\$556,283 98

SCHOOLS.

The expenses of our schools are large and must be, to keep them at their present high standard. I have confidence, gentlemen, that the Board of Education will guard well the finances in this department. Our only duty is to provide the means of support.

CEMETERIES.

Great improvements have been made in the care and management of the cemeteries in the past six years. Such a line of action should be continued.

STREET LIGHTS.

Nashua is now lighted all night by 183 arc and 22 incandescent lights for which the city pays \$112 per year each for the arcs and \$32 per year each for the incandescents by contract with the Nashua Light, Heat and Power Company for a term of ten years, making a total of \$21,200 per year. The number of lights can be increased, as needed, at the same price per light.

FIRE DEPARTMENT.

This department is well equipped and managed by an able commission. The firemen have performed their duties commendably in the past and deserve great credit for their prompt and efficient work. In their last annual report, the commission recommended that an engine house be erected in the northerly part of the city. This recommendation seems to me a reasonable one and I trust you will give it your early consideration.

POLICE DEPARTMENT.

This department is managed by a commission of three men whose previous official experience makes them unusually well acquainted with its needs and methods. The police station is new, commodious and fully meets the wants of the department. Our duties in regard to it end when we shall have provided means for its maintenance as the commission may require.

HIGHWAYS AND BRIDGES.

This department has been subject to a large amount of criticism during the past year and unfortunately some of it is just. The commissioner who was elected for 1892 has been in such poor health during the greater portion of the year that it has been impossible for him to personally attend to the duties of the office and it is fair to presume that the unsatisfactory condition of the streets is, in a measure, due to this cause.

I think it time to stop paying the full amount of the cost of laying out and grading new streets from the city treasury. In many cities of New England (perhaps New Hampshire excepted) the cost of building a new street is borne largely, if not entirely, by those who are to derive a large, immediate benefit from its construction. This is a just method. If a large advance in value to adjacent land is to result from the building of a new roadway, there is clearly good reason why a great part of the cost of such construction, if not the entire, should come on the interested owners.

I find that three expensive street improvements have been commenced, namely, the widening and straightening of Concord street, building Hudson and Commercial streets and widening and straightening Allds street. The completion of these improvements will require the expenditure of large sums of money, and should be given your early attention.

I recommend that the money appropriated for highways and bridges this year be used largely in putting in good condition the streets we now have, and that this work be done early in the year. The person elected street commissioner apparently has the confidence of the taxpayers and is well qualified for the position.

PUBLIC LIBRARY.

During the past year the city councils accepted the munificent cash gift of \$50,000 from Mrs. Mary A. and Miss Mary E. Hunt for a library building, as a memorial of the late John M. Hunt. The gift was accompanied by clearly defined conditions, which were unanimously accepted by the city councils. Competent judges who have examined these conditions carefully decide that the selection of a site for the building rests entirely with a specified committee, and it is therefore simply your duty to promptly appropriate money for its purchase, wherever it may be. This matter will probably be early brought to your attention.

For its influence upon any community there is always a place for a well managed public library, and I recommend an appropriation sufficient for its liberal maintenance.

CITY FARM.

Since my election, I have visited the city farm, and find everything well husbanded ; cleanliness and good order being especially noticeable. Our worthy poor seem to be well cared for. During the past year some needed improvements have been made, among them being the putting in of steam heating apparatus and Pennichuck water. I think the present superintendent the right man for the place, and recommend that he be retained this year.

IN GENERAL.

Important information regarding city affairs will be submitted in the annual reports of the various departments, and doubtless some suggestions be made that will merit and should receive your careful consideration.

There are several permanent improvements that I would like to see made this year, but the condition of our finances and the number of expensive projects now underway do not make the outlook for them encouraging, and I will not weary you with their mention at present. I may, however, from time to time further call your attention to matters that may suggest themselves to me in the discharge of the duties of the office.

I understand the uncollected taxes and cash on hand are considered about sufficient to pay outstanding bills, estimated at \$30,000. Temporary loans amounting to \$225,000 have recently been made; it is estimated that \$80,000 will be required to complete the three projected improvements mentioned in connection with highways and bridges: at least \$35,000 is needed for the purchase of a site for the John M. Hunt Memorial Library Building, and quite a sum for the completion of the Harbor sewer, so called, a total of several thousand dollars more than the entire regular appropriation of last year, \$138,900. This sum, large though it be, must be provided for soon as far as relates to temporary loans and some of the items named, and for the others before anything can be realized from the money already expended upon them. It would be unwise to attempt to raise this amount by taxation in any single year. I recommend that the legislature be requested to authorize the city to issue bonds to cover this amount for such time as will make their payment no marked hardship upon the city at any time.

Gentlemen, we cannot be too deeply impressed with the importance of the trust that has been placed in our hands. The city is fast growing in many respects with remarkable possi-

bilities and probabilities ahead. It must be our constant purpose to do all we may properly to promote its growth and prosperity. May the results of our deliberations and acts so prove. At best, it will be necessary for us to expend a large amount of the people's money: let us have a constant care that every dollar of it shall be for full value received, and that every department for which we are responsible shall be managed in an economical and business like way.

CITY TREASURER'S REPORT.

NASHUA, N. H., February 15th, 1893.

To His Honor, the Mayor, and the City Councils of Nashua:

GENTLEMEN:—I hereby submit the Report of the City Treasurer for the financial year ending Dec. 31, 1892.

Very respectfully,

WILLIAM E. SPALDING,
City Treasurer.

Dr. *Wm. E. Spalding, City Treasurer.*

REPORT

OF THE

COMMITTEE ON ACCOUNTS AND FINANCES.

NASHUA, N. H., Dec. 31, 1892.

The undersigned Committee on Accounts and Finances of the City of Nashua, have this day examined the accounts of Wm. E. Spaulding, City Treasurer, and find the same correctly cast, and each payment properly vouched by treasury orders in the hands of the City Clerk of said city. We have also examined the sources from which the income of the past year has been derived, and are satisfied that he has charged himself with the entire amount paid to him as City Treasurer, and has made a correct exhibit of the same in detail. We find the balance in the hands of said treasurer to be fourteen thousand one hundred and seven dollars and ninety-eight cents.

W. H. BEASOM, Mayor.

NASHUA, December 31, 1892.

The undersigned, Joint Standing Committee of Accounts and Finances of the City of Nashua, for the year ending December 31st, 1892, have this day examined the foregoing accounts of Eugene M. Bowman, City Clerk, and find the same to be correctly cast and sustained by proper vouchers, which are now on file at the City Clerk's office.

W. H. BEASOM, Mayor
 MARK FLATHER,
 ANDREW J. TUCK,
 ELMER W. EATON,
 MICHAEL MCGLYNN,
 GEORGE F. BLOOD.

REPORT

OF THE

FIRE COMMISSIONERS

OF THE

CITY OF NASHUA.

To His Honor, the Mayor, and the Board of Aldermen :

GENTLEMEN:—We, the undersigned, Fire Commissioners of Nashua, respectfully submit the second annual report of the Fire Department for the year ending December 31, 1892.

FIRES AND ALARMS, 1892.

The department has responded to seventy alarms: subjoined are the details :

Total value of property destroyed.	.	.	\$16,075 00
Insurance on property damaged.	.	.	13,675 00
			<hr/>
Net loss over insurance, °	.	.	\$2,400 00

Jan. 10: Box 46, 1:10 a. m. Caused by fire in the wood frame building owned by John Lund and occupied by John Farry as a bar room. Lund's loss, \$350: no insurance: Farry's loss, \$400: insurance paid, \$400. Cause of fire, overheated stove.

Jan. 10 : Box 94, 5:55 a. m. Caused by fire in the wood frame building owned by McClary and Farley, occupied by Howard & Marsh as a hack stable. McClary and Farley, loss \$2,750; insurance paid, \$2,000; Howard & Marsh's loss, \$4,275; insurance paid, \$4,275. Cause of fire, unknown.

Jan. 17 : Still alarm, 9 a. m. Caused by a chimney fire. No loss.

Jan. 17 : Still alarm, 4 p. m. Caused by a chimney fire. Alarm unnecessary.

Jan. 23 : Still alarm, 5:30 p. m. Caused by burning straw on Chestnut street. Alarm unnecessary.

Jan. 27 : Box 24, 1:25 a. m. Caused by a fire in the wood frame building owned by S. I. Fox and occupied by E. E. Mortlock as a dwelling house. Mortlock's loss, \$1,400; insurance paid, \$1,400; Fox's loss, \$2,000; insurance paid, \$1,500. Cause of fire, overheated stove.

Feb. 16 : Still alarm, 7 p. m. Caused by a chimney fire. No loss.

Feb. 17 : Still alarm, 9:30 p. m. Caused by a chimney fire. No loss.

Feb. 19 : Box 46, 9:15 p. m. Caused by a fire in the wood frame building owned and occupied by the Boston & Maine railroad as a yard office. Cause of fire unknown. Loss \$400; no insurance. Loss on contents, \$100; no insurance.

Feb. 21 : Box 57, 2:45 p. m. Caused by a fire in the wood frame building owned by Mrs. Geo. A. Hale. Damage slight; alarm unnecessary.

Feb. 24 : Box 46, 7:25 p. m. Caused by a fire in the wood frame building owned by John Lund, unoccupied. Loss, \$25; no insurance. Cause of fire, over-heated stove in making repairs.

Feb. 25 : Box 57, 7:40 p. m. Caused by a fire in the wood frame building owned and occupied by Geo. M. Chapman as a barn. Loss on building, \$75; insurance paid, \$75; loss on

contents, \$75; insurance paid, \$75. Cause of fire, overturned lantern.

Feb. 26: Box 53, 5:15 p. m. Caused by a slight fire in the wood frame building owned and occupied by the Nashua Iron and Brass Foundry. Damage slight. Cause of fire, molten iron running in contact with the side of the building.

March 12: Still alarm, 4:50 p. m. Caused by a fire in the wood frame building owned by the Nashua Iron and Brass Company and occupied by the same as a carpenter shop. Loss, \$35; insurance paid, \$35; damage to contents, none.

March 19: Box 87, 8:15 p. m. Caused by a fire in the wood frame building on School street owned by P. Barry. Damage, slight.

March 29: Box 72, 8:15 p. m. Caused by a fire in the wood frame tenement block owned by Charles McGregor. Loss \$35; insurance paid, \$35. Cause of fire, burning chimney.

April 4: Still alarm, 5:10 p. m. Caused by a fire in the dwelling house occupied by Dr. Woodward. No damage.

April 4: Box 87, 9:20 p. m. Caused by a fire in the wood frame building, owned by Fisher heirs and Fisher Brothers and occupied by P. T. Morey as a dry goods store. Fisher heirs' loss, \$50; insurance paid, \$50; P. T. Morey's loss, \$190; insurance paid, \$190. Cause of fire, unknown.

April 5: Box 42, 9:30 a. m. Caused by a fire in a freight car of hay owned and occupied by the Boston & Maine Railroad. Loss, \$100; insurance paid, \$100; loss on contents, \$165; insurance paid, \$165. Cause of fire, spark from an engine.

April 6: Box 38, 2 p. m. Caused by a fire in the wood frame tenement house owned by Charles Finning. Damage, slight. Cause of fire, rats nest between floors.

April 6: Box 49, 5:30 p. m. Caused by a fire in the wood frame house owned by Charles Williams and occupied by Mr.

Shannahan. Loss, \$40; insurance paid, \$40; damage to contents, none. Cause of fire, sparks from a furnace.

April 8: Box 67, 2:05 p. m. Caused by a fire at the Nashua Driving Park—O'Grady & Labine lessees—owned by Nashua Driving Park Association. Loss, \$150; insurance paid, \$150. Cause of fire, burning brush.

April 10: Still alarm, 6 p. m. Caused by burning rubbish near Nashua Theatre. No loss.

April 14: Box 19, 2:55 p. m. Caused by a fire in the woods near driving park. A detail ordered in charge of Assistant Smith. No loss.

April 14: Still alarm, 4:30 p. m. Call to same place to last fire. Alarm unnecessary.

April 16: Box 72, 3:30 p. m.. Caused by a slight fire in the wood frame tenement house on Ledge street. Damage slight. Cause of fire, burning rags.

April 17: Still alarm, 1:30 p. m. Caused by a fire on the line of the Boston & Maine railroad. No loss.

April 17: Box 92, 5 p. m. Caused by a fire in the woods near H. A. Holt's house on Main street. No loss.

April 21: Box 23, 8:40 a. m. Caused by a fire in the brush on Amherst street. A detail of men sent. No loss.

April 24: Box 92, 5 p. m. Caused by a fire in the woods. A detail was ordered in charge of Assistant Smith. No loss.

April 27: Box 30, 10:55 a. m. Caused by a fire on the line of the Concord and Montreal railroad. A detachment of men sent in charge of Assistant Fisher. Damage \$25.

May 1: Still alarm, 1:45 p. m. Caused by a fire on the line of the Concord and Montreal. No loss.

May 5: Still alarm, 4:40 p. m. Caused by a fire in the woods on the Dunstable road. A detail of five men sent to the place of fire. No loss.

May 6: Still alarm, 10:30 p. m. Caused by a fire in the rubbish on Front street. No loss.

May 7: Box 53, 4:40 p. m. Caused by a fire in the brick building owned by the Co-operative Iron Foundry Company and occupied by same as a casting room. Loss on building, \$1,415. Insurance paid, \$1415; loss on contents, \$200; no insurance.

May 7: Box 49, 10 20 p. m. Caused by a chimney fire. No loss. Alarm unnecessary.

May 9: Still alarm, 1:30 p. m. Caused by a chimney fire at the Laton House. No loss.

May 29: Box 49, 8:45 a. m. Caused by a fire on the roof of a dwelling house owned and occupied by Jeremiah Foley. Damage slight. Cause of fire, spark from chimney.

June 6: Still alarm, 1:15 p. m. Caused by a fire in the store of C. S. Masseeck on Temple street. Damage slight.

June 8: Box 35, 10:45 p. m. Caused by a fire in a tree on Jackson Company's land. No loss. Alarm unnecessary.

June 13: Still alarm, 6:35 a. m. Caused by a fire in a pile of straw at 7 Walnut street. No loss.

June 28: Box 38, 10:45 a. m. Caused by a fire in a wood frame building owned by Timothy Buckley and occupied by Michael Buckley. Loss on building, \$75; insurance paid, \$75; no loss on contents. Cause of fire, defective chimney.

July 3: Box 67, 4:45 p. m. Caused by lightning striking the wood frame house owned and occupied by Louis Dube. No damage.

July 27: Box 38, 11:25 a. m. Caused by a fire in the wood frame building owned by John Riney and occupied by Henry Sawyer as a tenement. Loss on building, \$53; insurance paid, \$53; no loss on contents. Cause of fire, children playing with matches.

July 28: Still alarm, 3:15 p. m. Caused by a slight fire in the Chinese laundry on Pearl street. No loss.

July 29: Box 19, 3:30 p. m. Caused by a fire in the wood frame building owned and occupied by A. L. Davis as a stable.

Loss on building, \$200 ; insurance paid, \$200 ; slight damage to contents. Cause of fire, lightning.

Aug. 3 : Box 42, 1:10 a. m. Caused by a fire in Hudson. Hose No. 1 was ordered to the place of fire and gave what assistance it could.

Aug. 9 : Box 87, 9:20 p. m. Caused by a slight fire in the wood frame tenement house owned by Patrick Barry and occupied by Peter Sweeney. Damage slight ; alarm unnecessary. Cause of fire, overturned lamp.

Aug. 27 : Box 46, 8:15 p. m. Caused by a fire in the dump on Marshall street. No loss ; alarm unnecessary.

Aug. 27 : Box 91, 11:30 p. m. Caused by a fire in the wood frame dwelling house owned by S. H. Richardson and occupied by S. E. Richardson and Mrs. Denies. Loss on building, \$20 ; insurance paid, \$20 ; loss on contents, \$120 ; insurance paid, \$120. Cause of fire, T. D. pipe.

Sept. 12 : Box 46, 2 30 p. m. Caused by a fire in the wood frame building owned by Proctor Brothers and occupied by same as a saw and kit mill. Damage slight. Cause of fire, sparks from chimney.

Sept. 17 : Box 19, 10:30 a. m. Caused by a fire in the wood frame house owned and occupied by J. M. Lovejoy as a dwelling house. Damage slight. Cause of fire, overturned oil stove.

Sept. 22 : Still alarm, 10:45 p. m. Caused by a fire in Parker's laundry. Alarm unnecessary.

Oct. 4 : Box 31, 7:15 p. m. Caused by a fire in the wood frame house owned by J. Griffin heirs and occupied by A. M. Parmenter as a dwelling house. Loss on contents, \$272 ; insurance paid, \$272 ; loss on building, \$90 ; insurance paid, \$90.

Oct. 11 : Still alarm, 8:50 a. m. Caused by a slight fire in the Tupper block on Factory street. Damage slight. Cause of fire, children playing with matches.

Oct. 22 : Box 45, 12:50 a. m. Caused by a fire in the wood frame building owned by James Kelley. Loss, \$500; insurance paid, \$500. Damage to contents, none, the building being unoccupied. Cause of fire, incendiary.

Oct. 31 : Box 16, 9:40 a. m. Caused by smoke coming out of Nelson Tuttle's store. No damage. Cause of fire, smoke from stove.

Nov. 12 : Still alarm, 5:50 p. m. Caused by a chimney fire in the house owned and occupied by Mrs. E. P. Emerson, Park street. No loss.

Nov. 18 : Box 92, 8:45 p. m. No cause; alarm unnecessary.

Dec. 3 : Box 34, 8:25 p. m. Caused by a fire in a pile of tar barrels in the sand pit owned by L. I. Minard on Whitney street. No loss. Cause of fire, boiling over of tar kettles.

Dec. 5 : Box 53, 1:45 a. m. Caused by a fire in Hudson. Alarm unnecessary.

Dec. 6 : Box 23, 8:52 a. m. Caused by a fire in the wood frame building owned by Arthur Colburn and occupied by Ed. Watson as a stable. Loss on building, \$150; insurance paid, \$100; loss on contents, \$300; insurance paid, \$300. Cause of fire, incendiary.

Dec. 20 : Box 34, 1:10 p. m. Caused by a fire in a bed at the Chandler block, corner of Tolles and Morgan streets. No damage.

Dec. 23 : Box 49, 9:20 p. m. Caused by a fire in the wood frame building owned by F. E. Tupper and occupied by four French families. Loss on building, \$40; insurance paid, \$40; no damage to contents. Cause of fire, chimney.

Dec. 24 : Still alarm, 7:15 p. m. Caused by a chimney in a wood frame house owned by Paul Otis and occupied by J. M. Hildreth. No damage.

Dec. 25 : Still alarm, 6:45 p. m. Caused by a slight fire in

the wood frame house owned by M. V. B. Greene. Damage slight. Cause of fire, clothes falling on stove.

Dec. 26: Still alarm, 3:25 p. m. Caused by a slight fire in a tailor's shop of J. M. Muir on Main street. Damage slight. Cause of fire, hot iron on a table.

Dec. 30: Still alarm, 8:05 p. m. Caused by a fire in a chimney at A. McMillen's blacksmith shop on Cedar street. No damage.

APPARATUS AND HOSE.

The apparatus consists of three Amoskeag steam fire engines, two one horse hose reels, two one-horse hose wagons, two hook and ladder trucks, one Babcock chemical engine, all in good condition, with the exception of Steamer Two, which is not reliable, also one of the reels, which will have to be replaced by a new one. There is at present 7,500 feet of fabric hose all of which is in good condition.

PURCHASES.

There has been purchased during the year one new hose wagon, two pairs swing harnesses and a large supply wagon, also the furnishing for the Arlington street engine house.

MANUAL FORCE.

The Department consists of a chief engineer, four assistant engineers, fourteen members each of steamers one, two and three, five members of chemical one, twelve members of hose one, eighteen members of hook and ladder one.

PERMANENT FORCE.

George O. Osborn, Chief Engineer.
L. A. Hamilton, Engineer, Chemical.
Geo. Hidden, Driver, Chemical.

Paul Hysette, Driver, Steamer No. 1.
 Albert C. Melendy, Driver, Hose No. 1.
 Chas. E. Farnsworth, Driver, Steamer No. 2.
 Alvin E. Hobart, Driver, Hose No. 2.
 Robert Poff, Driver, Steamer No. 3.
 Patrick H. Herlehy, Driver, Hose No. 3.
 B. E. Harris, Driver, Hose No. 1.
 John H. Kilbride, Driver, Hook and Ladder No. 1.

HYDRANTS AND RESERVOIRS.

There has been thirty-four new hydrants put in this year, making one hundred and sixty five in service. There are fifteen reservoirs and two fire stations in service at the present time all in good condition.

FIRE ALARM TELEGRAPH.

This branch of the service is in good condition. There have been four new boxes added, two of which are private: No. 6, owned by Roby & Swart; No. 4, White Mountain Freezer Co., making in all forty-two now in service.

RECOMMENDATIONS.

It has been the repeated call by the tax payers of the north end for some fire protection in that section of the city; the commissioners would recommend that an engine house be erected in that section this year.

We would recommend that a new first class fire engine be bought to take the place of Steamer No. 2. This engine has got to have a new boiler and other repairs. She is an old machine and is not reliable at the present time.

We would recommend an aerial ladder truck to cope with fires in high blocks which have been and are now being erected. Some of them have tenements on the fourth and fifth floors

January 1st the commissioners received a communication from the Nashua Board of Fire Underwriters, which we submit to your consideration.

To the Board of Fire Commissioners of the City of Nashua :

Gentlemen:—We would respectfully call the attention of your Board to the manifest needs for additional fire protection, with suggestions as to what appears to us to be necessary to meet the constantly increasing demands of this growing city.

This communication is made with no intention of instructing or desire of dictating as to the conduct of the fire department, but simply to express what seems to us to be imperatively demanded in order to give the City adequate fire protection.

We recognize the fact, that, since the organization of the Board of Fire Commissioners, the condition of the fire department has been much improved, and desire to express our satisfaction with the work of the department with the paraphernalia at its disposal, but it must be admitted by every one who is at all familiar with the subject, that additional apparatus is needed.

It has long been patent that a fire engine should be sta-

tioned in the northerly part of the City for the protection of the section on the high lands north of Railroad Square, to reach which, at the present time, means an exhaustively long and continuous uphill run for the apparatus, hampered as it is by the delays incident to the busy main street and railroad crossing, through and over which it must pass in every case. Again, there is, during the winter season, the additional impediment of snow, the effect of which on horses' hoofs and the wheels of the apparatus is painfully apparent.

It is also evident, that, with the ladders at its disposal, the department would be utterly unable to cope with a fire which might have its origin in the upper stories of any of the large business blocks which have recently been, and are now, being erected in various parts of the City.

In some other respects the department is not fully equipped and we respectfully submit for your consideration the following suggestions :

FIRST—The erection, at some point north of Railroad Square, of a suitable engine house, which should contain a steam fire engine and a combination wagon, carrying ladders, hose and chemical attachment.

SECOND—The procuring of suitable aerial ladders to enable the firemen to reach the upper stories and roofs of the large business blocks.

THIRD—The organization of a "Protective Company" or blanket brigade for the protection of property from damage by water. Such a company would require about a half dozen men, and the equipment, consisting of rubber blankets, etc., with the necessary wagon, could be purchased for a few hundred dollars and would undoubtedly pay for itself in a very short time.

FOURTH—The employment of some competent person, with proper authority, to inspect the buildings in the compact part of the city, and report to the Board of Fire Commissioners all dangerous risks and special hazards. Fire department officials and others who make the origin of fires a study are be-

coming convinced that the increase of the fire waste for the past two or three years is largely due to the introduction of electricity in our larger cities, and that a large number of fires whose origin is shrouded in mystery or supposed to be incendiary, have been caused by improperly protected wires. We beg, therefore, that that this subject may be carefully considered in the matter of the inspection of buildings.

Respectfully,

M. R. BUXTON,	}	Nashua

McKEAN & ANDREWS,		

Dated Nashua, N. H., Dec. 27th, 1892.

CONCLUSION.

GENTLEMEN:—The city is growing fast—spreading north, south, east and west—and the demand for better fire protection is heard on every hand. It is for you to say how far the commission can go to place the Department “as far as apparatus” goes, to meet the demands of the tax payers.

It will require an appropriation of \$22,000 to meet the running expenses of this Department this year.

We trust the recommendations will meet with your approval to help place the Nashua Fire Department second to none in the state.

Respectfully submitted,

CHAS. H. WHITNEY, Chairman.
 QUINCY A. WOODWARD,
 CHAS. T. LUND, Clerk.

CITY MARSHAL'S REPORT.

CITY MARSHAL'S OFFICE.

NASHUA, N. H., DEC. 31, 1891.

To the Honorable Mayor and Board of Aldermen :

GENTLEMEN—I have the honor to submit to you the annual report of the Police Department for the year ending Dec. 31, 1892, showing the strength and condition of the force under the Police Commission, which at this time consists of twenty-one men as follows: Marshal, Deputy Marshal, Captain, Seargent, Inspector, Turnkey, and fifteen patrolmen, and an auxiliary force of sixty-three extra policemen for special duty, to draw from when needed.

There has been only one case, calling for a hearing before the Police Commission during the year. That was on complaints and charges made by Thomas Carr and William F. Murphy against Officer Thomas Downey. These two men, Carr and Murphy, was arrested by Officer Downey for being drunk and noisy on his beat, after he had spoken to them and giving them a chance to go home. And after a full and impartial hearing before the Commission, Officer Downey was exonerated from all blame.

Having an increase of four patrolmen over last year, and the addition of a Seargent, it has enabled me to so construct the different beats, so now the city is fairly well covered, a great improvement over last year.

ARRESTS.

Arrests, males,	1,477
Arrests, females,	200

Balance paid to city treasurer,	\$9,367 46
---------------------------------	------------

Amount of property on hand in the hands of the police officers in round numbers,	\$1,600 00
--	------------

There has been a much larger amount of business performed by the police force the past year than in 1891, 433 more arrests, but for all this there has been over ten per cent. less drunkenness than in 1891 in the city. There has been genuine earnest work on the part of the police to enforce the prohibition law of the state, and the result shows a large decrease in the number of places where liquor was sold, and almost the entire closing of the places on the Lord's day. But in spite of the vigilance of the police there are now and then some who will sell on Sunday, but in every instance when these places have come to the knowledge of the marshal they have been prosecuted to the full extent of the law, and in several instances the offenders have been compelled to quit the business. I consider the efforts of the police in closing these kitchen dives, so called, have been very successful in the main. There is no trouble now with keeping the saloons closed on Sundays as the proprietors as a whole, do not enter or allow their clerks

to enter their places of business on Sunday. It is the so called kitchen bar rooms that the Sunday trouble comes from and it is the intention to close up and drive out of business every place, saloon or kitchen bar room that is caught open and doing business on the Lord's day hereafter. There has been quite a large reduction in the number of places where liquor was sold within the last two years, until there is less than 135 places in the city at this time.

DETECTIVE DEPARTMENT.

The business in this department has been faithfully and skillfully done by Inspector Thomas Flood. He has shown skill and energy and always ready to work night as well as day when it was required, and he has rendered this department valuable service.

POLICE SIGNAL SYSTEM.

I believe the city government should give this subject their careful attention. Our city is growing and in all probability will double within the next ten years, and with some good system and patrol wagon the department could be run cheaper and far more efficient than by any increase of men. The growth of our city is by the increase in manufactories in the outskirts, and it becomes necessary to extend the beat of the officers further out, and when they make an arrest at the farther extremity of their route it takes an hour at least to bring their prisoner to the station and return to their beat again, leaving it uncovered all that time, when, if there was a signal system with a patrol wagon, all the officer would have to do would be to take his prisoner to the signal box and send in his call and the patrol wagon come and take the prisoner, leaving the officer on his beat, which would be kept covered all the time by this patrol system and the officer could go and attend to other duties and make other arrests if the case required.

DISCIPLINE.

The discipline of the department has been good, the officers have shown a disposition to obey all orders and regulations cheerfully, and as a rule have performed their duties faithfully, and with credit to themselves and the department.

RELIEF ASSOCIATION.

An association has been formed within the department known as the Nashua Police Relief Association. Its purpose is for the relief and assistance of its members who, when sick or disabled by reason of their service on the force, to draw one dollar per day when sick or disabled, not to exceed one hundred dollars in any one year, or upon the decease of any member to pay one hundred to the family as a death benefit. An initiation fee and regular quarterly dues are paid by the members. We have a fund now in the bank of over seven hundred dollars.

POLICE MATRON.

This department is under the charge of Mrs. Eliza Cary, who takes great pride and interest in her work of caring for the unfortunate women. She takes pains to make them as comfortable as possible, and always has a good and kind word for all.

CONCLUSION.

The peace and good order of the city has been maintained; there has been general good times during the past year, and plenty of work; there has been no strikes or lockouts. Labor and capital have seemed to walk hand in hand, and our city has grown and prosperity is shown on every hand by our new buildings and churches erected and in process of erection. I have endeavored to discharge the duties of the office faithfully and impartially. I would remember His Honor, Mayor Beason, and

Acting Mayor Faxon, Hon. John A. Spalding, Hon. Charles H. Burke and Hon. E. O. Blunt, Police Commissioners whose counsels in the duties of this office has been of great value to me. I desire to acknowledge my obligations to Deputy Marshal W. W. Wheeler, and the Captain, Sergeant and Inspector and all the rank and file of the department, who have so ably assisted me, and tender to each and all my hearty thanks. I also extend my heartfelt thanks to Judge C. W. Hoitt, Associate Justice W. O. Clough, Clerk George E. Coulon and City Solicitor C. J. Hamblett, for their kind words and assistance. I have the honor to be, gentlemen,

Your obedient servant,

ALVIN S. EATON,

City Marshal.

CITY PHYSICIAN'S REPORT.

To the Honorable, the Mayor, and the City Councils of Nashua :

I submit herewith my report for 1892 :

Total number of calls upon me as City Physician 1310, subdivided as follows:

December . . .	18	63	10	4	0	95
Totals	262	792	60	35	161	1310

NO OF DEATHS, 13.

Charles E. Woods, Male, 24 years, Phthisis.

——— Dunn. (infant), Female, 1 year, 4 mos, Pertussis.

Georgiana Mason, Female, 34 years, 4 mos., Acute Gangrene.

Winslow Shattuck, Male, 76 years, Alcoholism.

Thomas Ingalls, Male, 74 years, Pneumonitis.

Matthew Sullivan, Male, 44 years, Valvular Disease of Heart.

Patrick Warren, Male, 61 years, Old Age.

Joseph A. Desmaris, Male, 4 mos., Cholera Infantum.

Joseph A. Shores, Male, 69 years 10 mos., Osteo-sarcoma of Lower Jaw.

Mary Sweeney, Female, 63 years, 8 mos., Pneumonitis.

John Bean, Male, 50 years, 6 mos., Syphilis.

Sophronia P. Farnum, Female, 63 years, Valvular Disease of the Heart.

Edward Tyler, Male, 62 years, Alcoholism.

The great increase of business in this department over previous years is due to the epidemic of La Grippe, which occurred during the first of this year.

Respectfully,

L. F. GRAVES.

REPORT OF BOARD OF HEALTH.

To the Honorable the Mayor and City Councils :

The report of the Board of Health for the year ending Dec. 31, 1892, is submitted herewith :

The necessity for the withdrawal from the board of the city marshal is to be deplored as the services of such an officer are most valuable. Not less to be deplored is the selection of a health officer living in a remote place, and leaving the work entirely upon the shoulders of the other two members. An office has been established in the City Hall and much needed desk room thereby secured. Office hours from 11 to 12 a. m. daily were tried, but so large a majority of persons having business with the board chose other times and places to transact it or employ the mails that the practice has been discontinued. One new feature of the work is the notification of the superintendent of schools of the existence of every case of contagious disease that comes to the notice of the board, materially assisting him in maintaining the health of the schools and in this matter as in all others the board has received the hearty co-operation of the superintendent. There is a marked improvement in the readiness of physicians to report contagious disease and much less objection among the people. The absurd notion that contagious disease in a house is a disgrace is dying out.

This year the "odorless process" of vault cleaning has been introduced by the board. While attended with the opposition and friction incident upon any innovation, it is a distinct advance upon preceding methods and its value is now conceded by the progressive citizens of the city, who are vastly in the majority.

The restrictions in the license of the company, drawn by the city solicitor, prevent extortion and demand a high grade of work. The weekly reports of the company show a total of 780 vaults and cesspools excavated.

The results of many years of trial in almost every other city of 20,000 inhabitants and of its single year here are such that the board earnestly recommend its continuance in the future.

Many cases of alleged nuisance, brought to the notice of the board were found to be without foundation and the outcome of neighborhood quarrels in which the board did not feel called upon to take a hand. Many others could have been more quickly and satisfactorily settled between the parties than by applying to the board. After a courteous request to abate has been refused, it is time enough to call in the Board of Health.

Total number of nuisances investigated,	402
Number abated by request of members of board,	107
“ “ after notice by mail,	141
“ “ “ “ served by sheriff,	17
Number of tenements connected with sewer,	86
Number of complaints given to city solicitor for prosecution,	11
Number prosecuted,	0
Number of persons still in contempt of orders of the board,	9
Number cases contagious diseases reported,	106
Number known to board and not reported,	41
“ cases visited,	92
“ cards put up,	90
“ fumigations,	3
The 106 reported cases are subdivided as follows:	
Typhoid fever,	12
Dyphtheria,	3
Scarlet fever,	91
Deaths from typhoid fever,	4
“ “ Dyphtheria,	2
“ “ scarlet fever,	1

The board recommend some device such as a hood to prevent the rush of air into the sewers opening above the water,

the abatement of the nuisance of stagnant water in the gutters of our principal streets, which is both unpleasant and unhealthy, and the discontinuance of dumping refuse upon private land situated near houses, especially in the warm weather.

GEO. A. UNDERHILL, Chairman.	} Board of Health.
I. F. GRAVES, Clerk.	
CALVIN T. ROBINSON.	

TWENTY-SIXTH ANNUAL REPORT

OF THE

Trustees of the Nashua Public Library.

To the Honorable City Councils:

The past year has been an eventful one in the history of the Nashua Public Library. The Trustees, realizing the urgent need of better accommodations for the Library, passed the following vote at their annual meeting held February 12, 1892 :

VOTED, That the City Councils be requested to appoint a committee to confer with a committee of this Board, to consider the question of increased accommodations for the Public Library, and also to consider the advisability of purchasing a lot for a Library Building at some future time.

In compliance with the request of the Trustees, the City Councils, at a meeting held April 26, 1892, appointed a committee of five, consisting of two Aldermen, and three members of the Common Council, for the purpose mentioned and with power to act.

As the result of the labors of the joint committee appointed from the Board of Trustees and the City Councils, the library has been removed from the County Record Building, where it was first located in 1867, and where it had remained for twenty-five years until transferred to its present location in the Odd Fellows Building.

The direct advantages gained by the removal of the library will be readily seen in the convenience of access to the room which will be appreciated by all patrons of the library.

Also by the greatly improved light and the additional space for shelves, giving better facilities for doing the necessary work of the library to the best advantage.

The library is now kept open, for the delivery of books, every day except Sunday, from 9 to 12 A. M., 2 to 5 P. M. and Monday, Wednesday and Friday evenings from 6:30 to 9.

These hours seem to be sufficient at present to furnish all needed accommodations.

The accessions to the library during the year have been six hundred and ten volumes, including twenty-six public documents, comprising history, biography and literature with a small percentage of works of fiction.

Total volumes January 1, 1893, eleven thousand, eight hundred and seventy.

When it is remembered that the library has had no permanent fund or other resource from which to draw assistance aside from the annual appropriation of the City Councils from which has to be taken the salary of the librarians, leaving rather a meager amount for the purchase of books, it must be admitted that the library has made a commendable growth, accumulating, year by year, such books as seem most desirable for the general purposes of a public library.

The increased appropriation for the last two years has been helpful and much appreciated by the Trustees and, if continued, will permit of more rapid increase than heretofore, the reduction in the price of books being favorable to that end.

The new catalogue with the improved system of shelf arrangement is found to be a great improvement over former methods, facilitating the selection and delivery of books.

This is especially true of those volumes designated as reference books which are often in demand by the teachers and pupils in our schools and by others.

It is hardly possible to fully estimate the immediate and prospective benefits that would be gained for the Library, and for its greater usefulness to the reading public if a Library

Building could be erected in which the library should find a permanent home.

The increased safety from possible destruction by fire afforded by a properly constructed building separated from other buildings is an item of prime importance.

Then, after providing for the present need and future growth of the library, suitable reading rooms could be provided that would supply a long felt want in this community.

That our citizens take a deep interest in whatever makes for the usefulness of the library was made manifest by the general rejoicing over the munificent gift of fifty thousand dollars to the city by Mrs. Mary A. and Miss Mary E. Hunt for the purpose of erecting a library building.

The delay on the part of the City Councils in taking such action as would secure to the library the great and lasting benefits to be derived from such a noble gift, is to be exceedingly regretted, and it is greatly to be desired that prompt and efficient action may now be taken in order that the benevolent purpose of those who have so generously placed at the disposal of the city such a large sum of money, be not defeated : but on the other hand that such a building be erected as shall be a public improvement and an honor to our city, and which shall stand as a permanent memorial to the name of an honored citizen.

GILMAN C. SHATTUCK,	} Trustees of Public Library.
VIRGIL C. GILMAN,	
CHARLES HOLMAN,	
GEORGE A. RAMSDELL	
BERNARD B. WHITEMORE.	
WILLIAM W. BAILEY,	
EDWARD SPALDING.	}

To the Trustees of the Public Library:

In July a very agreeable change was made in the location of the library rooms. They are much more accessible and convenient. The library was closed during the month of July in order to make this change. Since May 1 the library has been open mornings.

From September to the present time there have been 3,357 more books given out than during the corresponding months of 1891.

There have been 610 books added to the library the past year.

Books in the library Jan. 1, 1893,	.	.	.	11,870
Money received for catalogues and fines,	.	.	.	\$110 02
Library expenses, incidentals,	.	.	.	18 42

REPORT

OF THE

City Engineer.

CITY ENGINEER'S OFFICE,

NASHUA, N. H., JANUARY, 1893.

To His Honor the Mayor and the City Council's :

SIRS: I herewith respectfully submit my third annual report of the City Engineer's department for the year ending December 31, 1892 :

EXPENSES OF THE DEPARTMENT FOR THE YEAR.

Pay roll of all assistants for the year,	\$3260 92
All supplies and materials for the office,	143 26
Instruments and repairs,	204 30
Wagon, harness and keep of horse,	197 44
Bill for livery, 1891,	19 00
Stakes,	36 05
Tools, spikes, etc.,	19 46
Printing annual report,	10 00
H. B. Burley, for extra services,	300 00
Total,	<hr/> \$4,190 43
Amount appropriated,	<hr/> 4,300 00
Balance of appropriation not expended,	<hr/> \$109 57

There are three principal divisions of the work which has been done by the department during the year 1891. They are: Property maps of the city for the use of the assessors, Surveys and Plans on Sewerage System, and the Regular Work, which includes the current surveys of streets and sewers, etc. These divisions have been made partly for the purpose of keeping an account of the outlay for each object. Daily records of each man's employment have been kept so the expense might be fairly proportioned.

The expenditures then are divided as follows:

ASSESSORS'	{	Triangulation, . . .	\$130 00	
		Field work, . . .	714 25	
		Office work, . . .	885 30	
		Expenses charged to this		
MAPS.	{	account, . . .	236 74	
		Total, . . .	<u>1,966 29</u>	\$1,966 29
SEWERAGE	{	Bench leveling, . . .	\$176 50	
		Topography, . . .	449 50	
		Mapping, . . .	158 00	
		Expenses charged to this		
MAPS.	{	account, . . .	323 78	
		Total, . . .	<u>\$1,107 78</u>	1,107 78
REGULAR WORK.	{	Pay roll, . . .	\$747 37	
		Other expenses charged		
		to this account, . . .	368 99

ASSESSORS' MAPS.

In last year's report was given a general description of the system then adopted in making the surveys and plans for what have been called the "assessors' maps." By April 1, 1892, maps were completed for about half of the city. Dur-

ing last summer a party of three assistants were engaged in making the surveys and obtaining various data for the completion of the maps of the remaining territory, which included the entire portion of the city east of Main and Concord streets and north of Hollis street ; also the area north of the Nashua river and west of Concord street as far as Riverside Farm and northerly nearly to Pennichuck brook. This area comprises about 2600 acres. The completed maps are well under way and are supposed to be done April 1, 1893. When these are finished the city will have valuable plans of a territory covering 4600 to 4700 acres.

The system of triangulation has been used in the process of the surveys. The co ordinates have been calculated with reference to the true meridian as one axis. careful determination of the meridian having been made.

The notes thus obtained and in the possession of the city are of much value as from them maps may be made at any scale, either for a small area or for the whole city. The amount expended in 1891 for the assessors' maps was about \$1800, which together with the outlay of 1892 of about \$2000 makes the total cost to date \$3800. and \$500 is a sufficient sum to complete them by April 1, 1893.

SEWERAGE SYSTEM.

In my last report it was urged that attention soon be given to improvements in the system of public sewers. In May, an appropriation of \$1500 was made to provide for such field work and plans as were necessary in undertaking the design of a complete sewerage and drainage system.

The progress of this branch of the work has been quite satisfactory, and such as to indicate that the plans would be completed in March or April, 1893. so as to be of service in the sewer work for that season.

It was first necessary to do a large amount of accurate levelling to establish the relative elevations of points in differ-

ent parts of the city. From such established benches we were able to carry levels for contours, thus obtaining the topography of the settled portions and of the outlying districts which came within the drainage areas.

The contours for the north side of the city were taken for every five feet of elevation: for the south side they were taken every two and one-half feet as the land is generally more level.

In mapping the city for the purpose of designing the sewerage system, it was divided into the "north district" and the "south district," the Nashua river being the line of division of the two areas. Maps were made at a scale of 200 feet to the inch from notes already taken for the assessors' maps. The sewerage maps show when completed, all streets, the elevations at changes of grades of streets, the size of sewers in all streets and the topography of the entire area included in the plan.

REGULAR WORK.

Under this head has been classed all the surveying which has to do with the laying out of new streets, giving grades for edgestone, lines and grades of streets, also all the current sewer work, etc. Two assistants were employed most of the time in attending to these matters.

It may be noted here that in picking up men for temporary service on some extra work in the summer, it is difficult usually to get good help. But we were fortunate in getting faithful men and the work progressed without hindrance. The weather was unusually favorable for outdoor work.

STREETS AND BRIDGES.

During the year 1892 the following streets have been laid out and accepted by the city :

NAME OF STREET.	LOCATION.	WIDTH IN FEET.	LENGTH IN FEET.
Lesage,	From Lock St. to Jefferson St.	39	370
Salem,	From Lock St. to Summer St.	24	309
E St.	From Bridge St. to Hollis St.	45	376
Faxon,	From Main St. westerly.	40	561
Hudson,	Near Allds St. along side Hollis St.	50	774
Commercial.	From Hudson St. to Temple St.	50	749
Dartmouth,	From Sargent Ave. northerly.	50	706.8
Dinsmore,	From Cushing Ave. northerly.	50	770
Brookline,	" " " "	40	720
Gordon,	From Manchester St. westerly.	50	410
Douglass,	From Brookline St. westerly.	50	418.3
Hill,	" " " "	50	418.3
Concord,	Relocation from Greeley Farm northerly.	60	5750
Sawyer,	From Lake St. northerly.	40	1000
Webster,	From Stark St. northerly.	40	1065.7
Total,			14308.1 ft = 2.72 miles.

The most important street improvement has been that at Allds street, near Salmon Brook. Work on the foundation for the new bridge was begun in February. It was the first intention to put in an iron bridge and the estimate of its cost was \$4,500. Later it was thought advisable to construct a stone arch bridge instead, and the additional expense was estimated at about \$500. All the stone work was completed in May. The bridge has cost about \$4,800.

The work of grading the street, as re-located from Main street, was done by the Street Commissioners. Much trouble was experienced with the abutments on account of the change of grade of the street and a large expense was incurred for stone work in the effort to satisfy their demands.

The total expenditure for the Allds street improvements (not including sewers) for the year 1891, was \$7,303.05

Extensive changes were made by the discontinuance of Worthen street, and the laying out of Hudson and Commer-

cial streets, in order to abolish the crossing of the railway tracks at grade and to facilitate the improvements of the railroad company. The work of grading the new streets and building the retaining walls is being done by the company.

The Main street bridge over the Nashua river needs repairing. The timbering of the bridge is strong enough to last for years if protected by a water tight floor. As to widening the roadway it does not seem to me that the advantage of the increase in width of four or five feet would warrant the outlay for altering the pier and putting in another girder as would be necessary in widening the present structure. Whenever the bridge is replaced by a new structure it probably should be two stone arches of fifty feet span.

Canal street bridge ought to be painted. Hudson bridge was replanked in July and was tightened up so it is now in much better condition than that noted in my last report.

SEWERS.

The construction of all new sewers has been done by contract and under the inspection of the city engineer. The sewers built during the year are listed as follows :

SEWERS CONSTRUCTED—1892.

Name of Street.	LOCATION.	Length, in feet.	Size and material.
C St.	Bridge St. to Hollis St.	520	12 in. cement pipe.
Ash St.	Between Hollis St. and Kinsley St.	507	12 " Akron "
"	Extension near Aetna railroad	100	10 " cement "
Blossom.	Extension Pine St. and Ritter St.	658	18 " " "
Allds.	Near Spaulding St.	163	8 " " "
Stevens Ave	South from Ledge St.	320	10 " " "
Fairmount	Amherst St. to Highland St.	490	12 " " "
Highland.	East from Fairmount St.	200	10 " " "
Allds.	Between stone bridge and Main St. Sec. 1.	155	40x54 in. brick.
"	" " " " " " " " Sec. 2.	250	48x48 " "
"	" " " " " " " " Sec. 3.	96	54x54 " "
Summer.	Between Tolles St. and Cross St.	470	12 in. Akron pipe.
Harbor Ave	From Bowers St. to Bowery St.	447	15 " " "
Bowery.	From Harbor Ave. to Pond St.	332	12 " " "
Pond.	From Bowery St. and Otterson St.	124	12 " " "
Otterson.	Between Pond St. and Main St.	650	12 " " "
Spruce.	Between Worcester St. and Hollis St.	400	12 " " "
Courtland	In Manchester St. and in Courtland St.		
	to Webster St.	900	12 " " "
Courtland	From Webster St. east.	284	10 " " "
		420	12 " " "
Webster.	From Courtland to Rogers.	108	10 " " "
Pearl.	From Main St. easterly	215	12 " " "
Palm.	From Hollis St. south.	398	12 " " "

Total length, 8,209 feet.

There was in use in the city previous to 1890

(public sewers.)	.	.	.	74,000 feet.
Constructed in 1890,	.	.	.	9,322 "
Constructed in 1891,	.	.	.	8,429 "

Total length of public sewers, . . . 99,960 feet.
 Equal to about 19 miles.

Little has been done on repairs of sewers. Much attention will have to be given to it in the near future as many of the old sewers are not in good condition.

As will be noticed by the table Akron pipe has been used for all small sewers except in C street. The price of Akron pipe during the past year was very low.

The most important sewer built was that in Allds street. There has been for a year or two a pressing demand by the residents of South Main street for a sewer. A careful study of the situation led to the belief that probably the only proper way to drain that section of the city was by a large main sewer through Burke street to the Merrimack river. The future demands for sewerage and drainage of the very large area extending west by Lake street to somewhat beyond New Dunstable road and to the south, at Main street to provide sewerage for a portion of the Godfrey farm which is being sold in lots by Messrs. Spalding and Merrill and which will soon be occupied by houses.

The Hollis street sewer is not large enough for the demands which will come upon it by the improvements of drainage and the occupation of lands no farther west than the junction of Hollis and Dunstable roads. It is then, necessary to relieve that sewer and to consider, in the plans of Allds street sewer, an area extending at least as far north as Kinsley street at its westerly end.

There is a territory situated north and east of Salmon brook and bounded on the north by Bowers street and Williams street, for which there is no provision for sewerage. The natural drainage of the area is through Burke street. The petition then for providing means of draining a portion of South Main street at once asks for plans of great importance, to solve a much greater problem. The requirements are; First, that means of carrying a large sewer, across Salmon brook at a certain elevation, be provided; second that a piece of sewer between the brook and Main street be constructed, which shall be large enough and low enough to drain the large area west of Main street and it must empty temporarily into Salmon brook; third, the elevation of the sewer at the bridge should be that which will allow a good fall to the Merrimack river and give a depth of cutting through Burke street just sufficient to afford good drainage for the area in its vicinity and to the north.

About 500 feet of sewer has been built extending from the stone bridge toward Main street. The remaining distance to Main street should be of circular form, 54 inches in diameter, at a grade of one foot in 200.

As may be seen by the table all other sewers were of small size. They were put in with due consideration of the future needs of drainage but yet under the disadvantage which has existed for several years of being without definite plans of a sewerage system.

Some of the sewers, notably in Spruce street and in the west end of Courtland street, were put in temporarily until there are deeper sewer with which to connect.

All sewers have been carefully and thoroughly constructed.

CONCLUSION.

Considerable time has been required for giving lines and grades for the street railway tracks which have been largely extended

Some surveying was done in the cemeteries for staking out lots. More attention should be given to preserving the lines of the avenues and walks in the cemeteries. The stone curbing set for the lots is seldom set where it belongs. It should be required that no curbing be set until the line of the lot had been given by the city engineer.

The system of the office is now well established. Every plan in the office and all field notes are completely indexed so that they can be readily used for reference.

In conclusion, I desire to thank Acting Mayor Faxon and the members of the various committees for their confidence and support. I would also acknowledge the faithful service of my assistants.

Respectfully submitted,

HARRY B. BURLEY.

REPORT OF THE CITY SOLICITOR.

To His Honor the Mayor, and City Councils :

GENTLEMEN :—I submit my report as Solicitor for the year ending Dec. 31, 1892 :

During the year the following cases were disposed of :

SPRING VS. NASHUA : WILLARD VS. NASHUA.

In the above cases the plaintiffs claimed damages for injuries received while traveling on West Pearl street in 1889, by reason of a defect in the highway, caused by the piling up of snow on either side of the Horse Railroad track. I served notice on the Horse Railroad company, requesting them to defend the suits, and they settled with the plaintiffs, and the city was relieved of all expense.

STRATTON VS. NASHUA :

This action was brought to recover damages for injuries received by the plaintiff, as he alleged, on the highway near Roby's farm in May, 1889. This suit was entered neither party, and settled without any expense to the city.

DUTTON VS. NASHUA :

This action was for injuries received by falling on the sidewalk on Main street, and was settled by the committee for \$900.

COLBY VS. NASHUA :

This action was for injuries sustained by falling on the sidewalk on Main street near Chandler's store. Settled by the committee for \$800.

BILLETTE VS. NASHUA :

This was an action brought to recover damages for injuries sustained by reason of a defect on Palm street, where the plaintiff sued for \$5000. In this suit the Nashua Horse Rail-

road company was notified and requested to defend. As both the Nashua Horse Railroad company and the city contributed to the defect, the city paid \$537.50, and the Nashua Horse Railroad company a like sum.

GAUVIN VS. NASHUA :

A suit brought for injuries sustained while working for the city in the street department, and was settled by the committee for \$450.

GRAVES VS. NASHUA :

This action was for injuries received on Amory street, and settled by the committee for \$150.

SPILLANE VS. NASHUA :

This action was for injuries received by falling on the sidewalk by the Tremont House ; settled by the committee for \$325.

I have attended several meetings of the Committee on claims during the year and given several written opinions at the request of the City Councils and have tried all cases in the police court, in behalf of the state, when called upon by the City Marshal.

Respectfully submitted,

C. J. HAMBLETT,

Solicitor.

VITAL STATISTICS.

BIRTHS REGISTERED IN THE CITY OF NASHUA, N. H., FOR THE YEAR ENDING DECEMBER 31, 1892.

AMENDED AND ADOPTED DEC. 29, 1887.

CONSTITUTION OF THE BOARD OF EDUCATION.

I. The Board of Education of the city of Nashua is constituted in accordance with the laws of New Hampshire and the city charter, and consists of twelve members, four of whom are to be chosen annually for a term of three years: said Board at the beginning of each year choosing a President and Clerk from their own number.

II. The Board thus constituted shall have the care and superintendence of the schools; and may, if deemed expedient, appoint a Superintendent, to whom, under the direction of the committee shall be committed the direction of the schools.

ORGANIZATION OF THE BOARD.

I. The meeting for organization shall be held annually on the Thursday following the inauguration of the city government at 7:30 o'clock p. m. In case of any failure to meet at that time the Clerk of the old Board shall cause a meeting for organization to be called as soon thereafter as practicable.

II. The first business, after the necessary preliminaries, shall be the election by ballot, of a President and clerk of the Board. If deemed expedient, a Superintendent shall also be elected by ballot. They shall also appoint of their number, on nomination by the President, five standing committees, to wit:—

1. Committee on Finance, Accounts and Claims.
2. Committee on Schoolhouses and Supplies.
3. Committee on Text books and Teachers.
4. Committee on Boundaries and Assignment of Scholars.

5. Committee on Music.

III. The Board shall receive the report of the committee upon examination of teachers, and elect or appoint from the names reported such persons to such positions as they may deem proper.

IV. All applications for schools shall be made in the applicant's own handwriting, and shall state the residence, age and experience in teaching, together with reference as to moral character.

V. The salaries of all teachers shall be fixed by the Board at the time of election, but may be changed at the discretion of the Board.

VI. The annual report of the city, and the preparation of the report required by the state, shall be made by a special committee chosen by the Board, or by the Superintendent.

SUB-COMMITTEES.

I. Sub-committees of the Board shall be appointed once a year, and they shall consider the schools assigned to them under their special care. They, with the Superintendent, shall give advice to the instructors in any emergency, and take cognizance of any difficulty which may occur between instructors and pupils, or parents of pupils, or between the instructors themselves, relative to the government or instruction of the school. An appeal, however to the whole Board is not hereby precluded to any citizen, pupil or instructor.

II. Although the interests of the schools demand sub-committees of the Board, each member shall consider it his duty to watch over the public schools in the city : to attend their examinations, and to visit them at other times, according to his ability.

ORDER OF BUSINESS.

I. At the regular meetings of the Board the order of business shall be as follows :

1. Reading the call and noting the absent members.

2. Reading the minutes of the last meeting.
3. Report of Committees.
4. Unfinished business.
5. New business.

II. The deliberations of this Board shall be governed by the ordinary parliamentary rules, in the absence of any special regulations.

III. The rules of this Board cannot be altered except upon notice given at one meeting previous to action thereon.

IV. This Board may meet with closed doors when deemed expedient.

V. The meetings of the Board shall be held by adjournment from time to time, or by call of the President, or when requested by two members of the Board.

VI. A majority of the Board present and voting shall be necessary to give validity to any vote or act, and six members of the Board shall constitute a quorum. To be valid any vote or act must receive the vote of four members.

DUTY OF OFFICERS.

I. The President shall perform the usual duties of presiding officer.

II. He shall appoint all committees whose appointment is not especially provided for or otherwise directed by the Board.

III. He may direct the Clerk to call a special meeting whenever he may deem it expedient.

DUTIES OF THE CLERK.

The Clerk shall keep a fair and accurate record of the proceedings of the Board, and shall have charge of all papers directed by the Board to be kept on file; he shall give notice of each special meeting; he shall notify the chairman of every committee appointed, stating the special duties of said com-

mittee and the name of the members associated with him : he shall call extra meetings of the Board, by direction of the President, or at the request of two or more of its members : he shall notify the instructors-elect of their appointment, and give such other notices as the Board may direct.

DUTIES OF COMMITTEES.

I. The committee on finance, accounts and claims shall examine all bills, and report the same to the Board for final action.

II. The committee on school houses and supplies shall examine into the condition of houses, out buildings and yards : make such repairs as they may deem necessary, and purchase all needed supplies, when any such expenditure will not, by estimate, exceed one hundred dollars. Larger expenditures shall first be reported to the Board and receive its approval.

III. The committee on text books and teachers shall recommend to the Board what changes, if any, shall be made in text books : shall, with the Superintendent, examine such persons as propose to teach in any of the schools, and furnish to the Board the result of such examination, for final action : and shall assign or transfer elected teachers as they may deem expedient.

IV. No change of text books shall be made at any time unless by a vote of two-thirds of the entire Board.

V. The committee on boundaries and assignment of scholars shall establish the boundaries for the several school divisions and regulate the attendance in each.

RULES FOR THE SUPERINTENDENT.

SECTION 1. The Superintendent shall make the public school system a study, and keep himself thoroughly informed of the discipline and progress of instruction in other places.

that he may prescribe the most efficient means for advancement of the public schools of the city. He shall devote himself entirely to the duties of his office, and secure a full compliance with the orders and regulations of the Board of Education.

SECT. 2. He shall, under the direction of the Board, have the supervision of all the public schools: he shall visit and carefully examine into the condition and progress of each school as often as his other duties will permit: he shall attend to the classification of scholars, and equalize, as far as practicable, the attendance upon different schools

SECT. 3. He shall have power to appoint stated or occasional meetings of the teachers in the public schools, for the purpose of instructing them in relation to their duties, and for mutual consultation in matters touching the prosperity of the schools. He shall advise with the teachers in reference to the course of instruction and discipline, see that the prescribed studies are carefully pursued, and that no books are used except those adopted by the Board: and all orders issued by him shall be binding upon all teachers unless revoked by the Board.

SECT. 4. He shall investigate all cases of discipline or difficulty reported to him by teachers, parents or guardians and take such action in the case as he and the sub-committee deem expedient. He shall exert his personal influence to secure general and regular attendance, and to raise the character of each school, and, as far as practicable, of each scholar.

SECT. 5. He shall attend the meetings of the Board, and, when called upon by the President, express his opinion on any subject under discussion, and give such information as he may be able. He shall receive and classify the monthly reports of the principals of the several schools and present them to the Board at its next meeting: and at the beginning of each term shall receive and classify the order of exercises of each school in the city. He shall annually prepare a written report for

publication, giving such information as to the character of the schools, and presenting such plans for their improvement as he deems advisable.

SECT. 6. He shall aid in the examination of teachers, and direct all public and private examinations of schools appointed by the committee.

SECT. 7. He shall furnish to teachers all the necessary blanks, registers and text books, and shall keep an account of the same. He shall use his best efforts to secure the observance of the law concerning the employment of children in manufacturing establishments, and carefully inquire and ascertain the names of all scholars of non resident parents and guardians, and make out all bills and collect all moneys due the city for their tuition. He shall be authorized to cause all such repairs to be made as are immediately needed for school houses, furniture and warming apparatus.

SECT. 8. He shall have direction and control of the transfer of scholars from one school to another of the same grade, and all certificates of transfer shall be signed by him. Upon every application for a transfer, he shall investigate the reasons therefor, and especially regard the numbers in the schools and the residence of the scholars. In doubtful cases he shall consult the appropriate sub-committees, or refer the case to the Board.

SECT. 9. Under the advice and direction of the Board, he shall examine, or cause to be examined, the most advanced classes in the schools, or so many as shall be candidates for the next higher grade, in such manner as may be prescribed by the Board, and make selection of such as are prepared for promotion.

SECT. 10. He shall report to the Board at each monthly meeting the number of cases of corporal punishment occurring in each of the public schools during the previous month.

SECT. 11. In all cases of truancy or non-attendance upon school which may come to his knowledge, he shall, in every

instance, strive to reform the child; but if unsuccessful, he shall report the name of the habitual truant or absentee to the officer whose duty it is to make complaint in such cases. He shall report to the Board every case of delinquency, tardiness or violation of any of the rules on the part of teachers.

SECT. 12. The Superintendent, or the Board, may make arrangements with dealers in books and supplies, to furnish to pupils whatever they may need to use in the schools, at as small advance above wholesale prices as they may be able to secure.

SECT. 13. He shall keep regular office hours, and shall be in his office, *on all school days*, except when visiting Suburban schools, from 8:30 to 9:30 A. M. and from 12 to 12:30 and 4:30 to 5 P. M. In case of absence or sickness, he shall notify the President of the Board, and make such arrangements for his office as he may think proper.

RULES OF THE SCHOOLS.

RULES OF TEACHERS.

I. THE PRINCIPAL.—The school-house and outbuildings, with their keys, furniture, grounds, and all other property belonging to the school, shall be in charge of the Principal, who will be held responsible for their preservation.

II. The Principal shall carefully observe the hours appointed for commencing and dismissing the schools, and shall be at the school-house for the purpose of preserving order, at least fifteen minutes before the hour prescribed for beginning the school.

III. The Principal shall send to the Superintendent, on the Monday following the close of each month, a report showing the whole number and the average number of males and fe-

males in the school, together with the average daily attendance, and the percentage of daily attendance for the month ending on the preceding Friday, or such part thereof as has not been embraced in a previous report. He shall also report the number of cases of corporal punishment occurring in each class of the school under his charge, together with such other information as the Superintendent may deem for the best interests of the Public Schools.

IV. The Principal shall establish such rules as may be necessary to secure good order and neatness in the school house and on the grounds, and the preservation of the furniture, books and apparatus in the school rooms.

V. Unless other provision is made, the Principal shall appoint some suitable person to build fires and take care of the school house, whose compensation shall be fixed by the Board.

VI. In all cases of wilful and persistent violation of the rules of the school, the Principal may suspend the offender. In all cases of suspension the Principal shall at once give notice to the parent or guardian of the pupil, and also to the Superintendent: and every such notice shall state the offence for which the suspension is inflicted.

VII. No Principal shall be engaged in any other profession or employment while employed by the city.

VIII. THE ASSISTANT TEACHERS.—In the absence of the Principal, the assistant teacher shall take charge of the school unless other provision is made by the sub-committee. It shall be the duty of all the assistant teachers to co-operate with and assist the Principal in the maintenance of order, study and discipline among the pupils, and they shall be in their respective class-rooms for that purpose at least fifteen minutes before the hour prescribed for beginning the school.

IX. Teachers shall dismiss their classes promptly at the appointed hour: but individual pupils may be retained for discipline or instruction, not exceeding thirty minutes, after the close of the afternoon session.

X. IN GENERAL.—During school hours all teachers shall faithfully devote themselves to the instruction, discipline, manners and habits of the pupils. They shall give constant employment to their scholars, and endeavor by judicious and diversified methods to render the schools both pleasant and profitable. They shall use all suitable means to promote good morals and polite manners among their pupils. They shall maintain firm, prudent and vigilant discipline, and shall use corporal punishment only when gentler methods fail to secure obedience.

XI. All teachers shall be required to keep registers furnished at the public expense, in which they shall record the name, age, and attendance of each pupil and such other particulars as shall give a correct idea of the state of the school. These registers shall be returned to the Superintendent at the close of each term unless otherwise directed: and all blanks in these registers shall be filled out each term, in order that teachers may be legally entitled to receive their pay. A certificate from the Superintendent that these requirements have been complied with shall be presented to the City Treasurer before the salary shall be paid.

XII. Any teacher desiring to be absent from school shall obtain permission of the Superintendent who shall be authorized to fill such temporary vacancy. The absence of any teacher for more than two weeks shall cause a deduction from the salary of such teacher, corresponding to the entire absence but for a less period no deduction shall be made from the regular salary, and the teacher shall pay the substitute provided by the Board. Substitutes shall be paid for days of actual service as follows: High school, \$2.50; Grammar, \$2.00; Middle and Primary, \$1.66, and Suburban schools, \$1.50 per day, but for a full term they shall receive the minimum salary of that particular grade.

XIII. If any teacher is absent or tardy without being excused by the Superintendent, or shall dismiss school before the end of the session without his permission, it may be con-

sidered by the Board as a resignation on the part of such teacher.

XIV. The absence of any teacher, employed in the public schools of Nashua, from any exercise, meeting or gathering called by the Superintendent or authorized or directed by him or the Board of Education or any Committee thereof, may be considered by the Board as a resignation on the part of such teacher.

XV. All teachers, upon notification of their election, shall be presented with a copy of these regulations, and they shall signify their acceptance by subscribing to them.

XVI. It shall be the duty of all teachers to have a copy of these regulations at all times at their respective school-rooms, and "Rules of the Schools, relating to pupils" shall be read to the pupils by the teacher at least once during each term.

XVII. The practice of teachers receiving presents from pupils while in the service of this city is, in the opinion of the Board, wrong, and is therefore prohibited.

XVIII. Teachers are prohibited from furnishing any text books or supplies to pupils.

XIX. Any teacher who leaves the school under her instruction, except in case of sickness, before the close of the school year, shall receive no compensation for the last four weeks of service, unless notice of such intention was duly given before the commencement of the then current term. *Provided:* That the Board, in regular meeting, may waive the last foregoing stipulation.

XX. Teachers' certificates shall not be granted to persons under eighteen years of age, and to no pupil of the High School while said pupil is attending school.

XXI. Teachers of all grades below the High School are expected to keep proper discipline in their rooms, and no pupils are to be sent to the principals or Superintendent for correction unless for grave offences.

ADVERTISEMENTS.

XXII. No teacher shall read or distribute any advertisement or allow any advertisement to be read or distributed in any of the public schools, nor shall any public entertainment be announced in any school without special permission.

SECTARIAN INSTRUCTION PROHIBITED.

XXIII. No book or tract designed to advocate the tenets of any particular sect or party shall be permitted in any of the schools, nor shall any sectarian or partisan instruction be given by any teacher in the same.

MORNING EXERCISES.

XXIV. The morning exercises of all the schools shall commence with the reading of the scriptures, followed by the Lord's prayer, during which service all the teachers and pupils connected with the school shall be present.

RELATING TO PUPILS.

I. AGE.—No pupils under five years of age shall be admitted to the schools, and no pupil shall be admitted to Grade 1, excepting during the first week of the Fall and Spring terms, unless qualified to enter some existing class.

II. PLACE.—Pupils shall attend the schools in their own divisions, unless permission to attend elsewhere is granted by the Superintendent, and approved by the Committee on Boundaries and Assignments, or by the consent of the Board.

III. STUDY.—No pupil shall be allowed to study out of school *during school hours*, or leave school for the purpose of taking music lessons, or take less than the required number of studies, or change from one prescribed course to another, without permission from the Board. Pupils shall make up all neglected lessons, unless excused by the Principal. All schol-

ars in the schools shall pursue the prescribed studies unless they shall present to the Superintendent a certificate of physical disability from their regular family physician.

IV. TERMS OF ADMISSION.—Each applicant must present to the teacher a certificate of admission from the Superintendent.

V. DEPARTMENT.—Each pupil shall enter the department indicated by the card of admission.

VI. BOOKS.—Each pupil shall come provided with the necessary books, etc.

VII. TIME FOR OPENING SCHOOL.—The bell shall be rung five minutes before the time of commencing school, and all scholars not in their seats at the expiration of those five minutes shall be accounted tardy.

VIII. EXCUSES.—Any pupil having been absent or tardy shall be required to bring a written excuse from parent or guardian; and any pupil who has been absent five half days in the month (two tardy marks counting as one-half day's absence), except from sickness or some imperative necessity, shall be sent to the Superintendent.

IX. LEAVING SCHOOL.—No pupil shall be allowed to leave school before the appointed time, except in case of sickness, or some pressing emergency, of which the teacher shall be judge.

X. ORDER.—When pupils enter their respective rooms, before the time for opening school, they shall conduct themselves with due decorum. They shall not indulge in scuffling, whistling, boisterous noise, or loud talk in the school building.

XI. PERSONAL NEATNESS AND CLEANLINESS.—Among the pupils special attention shall be paid to personal neatness and cleanliness. The use of tobacco in any form, by teacher or pupils, is expressly prohibited. Any child coming to school without proper attention being given to cleanliness, or whose

clothes need repairing, shall be sent home to be properly fitted for school.

XII. TO AND FROM SCHOOL.—Pupils shall be under the jurisdiction of teachers to and from school.

XIII. IMPROPER CONDUCT.—Any pupil who shall, on or around the school premises, use or write any profane or indecent language, or draw any obscene pictures or representation, shall be liable to suspension or expulsion.

XIV. DAMAGE TO SCHOOL PROPERTY.—Any pupil guilty of defacing or injuring the school property, shall pay in full for all damages, and be liable to suspension.

XV. INJURIOUS HABITS AND CONDUCT.—In all cases where the conduct and habits of a pupil are found injurious to associates, it shall be the duty of the principal to suspend such pupil from school, and at once report the case to the parent or guardian and to the Superintendent.

XVI. VACCINATION AND DISEASE.—No scholar shall be permitted to attend any school in the city who has not been duly vaccinated: nor shall any scholar afflicted with any contagious disease, or residing in a family afflicted with any such disease, be permitted to attend until he has produced a certificate from some regular physician, stating that there is no danger to be apprehended from the same.

XVII. ABSENCE FROM SCHOOL.—Whenever any scholar is absent from school, the teacher shall at once ascertain the reason and if such absence be continued, and is not occasioned by sickness or other sufficient cause, he shall report such absence to the proper authority enforcing the truant law.

XVIII.—No scholar shall be allowed to remain in any schoolroom during the noon intermission, unless the teacher is present, or the special consent of the teacher is obtained.

XIX. TUITION—Non-resident pupils, unless by a special vote of the Board, shall be required to pay tuition as follows: For a term of twelve weeks in the High school, \$12; Grammar schools, \$8; Middle schools, \$5; Primary and Suburban

schools. \$3; and at corresponding rates for fractional parts thereof.

XX. Pupils who do not maintain a fair standing in their classes by reason of absence, indolence, inattention, or lack of previous preparation, may be placed in a lower class on the recommendation of the teacher and consent of the sub-committee and Superintendent.

SCHOOL TERMS.

I. NUMBER OF TERMS.—The school year shall be divided into three terms, which shall begin and end as follows, unless changed by special vote of the Board:

II. SPRING TERM.—The Spring Term shall commence on the second Monday in April, and continue twelve weeks.

III.—FALL TERM.—The Fall Term shall commence on the third Monday in September and continue twelve weeks.

IV. WINTER TERM.—The Winter Term shall commence on the last Monday in December, and continue twelve weeks.

SCHOOL HOURS.

I. SESSIONS.—The session of all the schools shall be of five hours' duration. The morning session shall begin at nine o'clock, and the afternoon session at two o'clock, closing at four o'clock.

II. RECESS.—During the morning session there shall be a recess of fifteen minutes, and during the afternoon session of the Middle and Primary schools there shall be a recess of fifteen minutes.

VACATIONS AND HOLIDAYS.

I. VACATIONS.—There shall be a vacation following the winter term, of two weeks; following the spring term, of eleven weeks; following the fall term, of three weeks.

II. On *very stormy* days the school session will be omitted

in all grades. Notice will be given by the school bells at 8:15 for no session in the forenoon, and at 1:15 for no session in the afternoon. For no session of the evening schools, notice will be given by the Spring street bell at 6:15.

III. HOLIDAYS.—The following holidays shall be granted to the schools: Every Saturday, Twenty-second of February, Fast Day, Memorial Day, Fourth of July, Thanksgiving Day, and the day after, and Christmas.

VENTILATION.

I. Teachers must, at all seasons of the year, make the ventilation and temperature of their school rooms an essential object of attention. *The air in the room must be sufficiently changed at every recess and at the close of every session. Pupils should in no case be allowed to sit in a draught of air.*

II. Every school room must be supplied with a thermometer which will be furnished upon the application of any teacher to the Superintendent. The thermometer shall be placed so as to indicate, as nearly as possible, the average temperature of the room.

JANITORS AND THEIR DUTIES.

This Board shall annually elect by ballot one or more persons to serve as janitors. It shall be the duty of the janitor to have the charge of the heating apparatus and the water works connected with the school houses, to keep the rooms clean and well ventilated: to take care of the school houses and outbuildings; to make minor and incidental repairs; to lock and unlock the doors; to notify the committee on school houses and supplies whenever fuel is needed, and to see that the premises in general are kept in good order. They shall also be subject to such special regulations, and perform such additional duties in and about the premises, as the sub-committee on their respective schools, or the Superintendent, may indicate.

RULES FOR THE TEACHER OF MUSIC.

I. Vocal music shall be taught one-half hour each week in each division of the Grammar, Middle and Primary schools of the city, by the teacher of music, except in the second and third Primary grades where the time may be reduced to fifteen minutes each at the option of the Superintendent; and in addition, fifteen minutes each day (excepting the day of the regular instruction by the teacher of music) shall be devoted to musical instruction by the regular teacher, under the general direction of the teacher of music; and vocal music shall be in all respects regarded as one of the regular studies of the schools.

II. It shall be the duty of the teacher of music to call special meetings of the teachers for the purpose of instructing them, and for mutual consultation in regard to the teaching of this service.

III. He shall, while he is in the school, have complete charge of the same, and every teacher will be expected to aid and assist in any way that he may direct.

IV. No scholar will be excused from this exercise unless an excuse is received from the teacher of music and sub-committee in the district to which he may belong.

V. During the time that he may have charge of the school all the scholars will be subject to his government and discipline.

VI. He shall, monthly, report progress to the Board at their meetings, and in case any difficulty should arise between himself and any teacher, he shall report the same to the Superintendent without delay.

VII. He shall recommend to this Board, after a careful examination, some regular system of music. But he shall not make any change of books or systems until they have been referred to the committee on music and have received the sanction of the Board.

VIII. He shall have complete control of all the instruments of music, charts, books, etc., which shall belong to the city, and shall make it his special duty to see that proper care is taken of the same, and, in case of any injury or rough usage to the same by any scholar or teacher, shall report the same to the committee on music.

SUPERINTENDENT'S REPORT.

To the Board of Education, Gentlemen:—

I have the honor of submitting to you the report of the public schools of Nashua for the year 1892, which makes the twenty-sixth annual report of the Superintendent of Schools.

FINANCES.

The sum of \$48,447.45 was expended during 1892, nearly \$2,600 less than the sum expended during the year 1891, although the pay rolls show a slight increase. For many years there had been a gradual increase in expenditures, until in 1890 the large sum previously expended was exceeded by about \$7000, and in 1891 a further increase of about \$3000 occurred. Twice in twenty years there has been a slight general increase in salaries. The number of teachers has increased from forty-four to sixty-five. In 1890 a new building was opened, the free text book law became operative, additional teachers at the High and Mt. Pleasant schools were required and since then several salaries, including those of the superintendent, truant officer and some janitors have been raised. Are the schools conducted as economically as possible? On the whole, I believe that they are. One would be foolish to affirm that nothing is ever wasted in this department. There seems to be a tendency, too, in the right direction, I believe, to pay teachers better salaries, to reduce the number of pupils allotted to each teacher and furnish books and supplies of good quality in sufficient abundance. In self-defence a community cannot afford to be niggardly in the management of its school department.

The details of expenditure will be found in the city report. A little comparison may be interesting. With a valuation of

\$9,511,940 in 1882 the rate for school purposes was 3.73 mills per dollar; in 1892 the valuation was \$12,085,629 and the rate 4.08 mills, an increase of thirty-five hundredths of a mill. In 1875 the rate was 4.8 mills, higher than at present. For the whole state of Massachusetts, the rate in 1882 was 3.45 mills, and in 1892, 4.14 mills, so that it would seem that the increase here has been normal. I have not at hand the New Hampshire tables. At Dover, however, the rate for 1892 was 5.5 mills, Concord, 3.7 mills. Another comparison: In 1882 the cost in the total enrollment was \$12.89; in 1892, \$15.62, an increase of but \$2.73 per pupil, notwithstanding eight additional teachers, increase in salaries, and free text books and supplies. The cost per pupil in Massachusetts was \$17.64 in 1882, \$24.32 in 1892. One other fact, the city council appropriated for schools in 1883, \$17,000, in 1892 just \$7000 more.

SCHOOL HOUSES AND SUPPLIES.

During the summer repairs were made as usual where necessary. The severe weather of the present season developed the fact that the heating apparatus at the Main street building was inadequate. Additional radiating surface has been put in and it is hoped that the defect has been remedied.

I would suggest as present needs in our school buildings: New treads in the lower stairways of the Spring Street building, a complete renovation of the Main Street building, a matter of doubtful economy, a change in the lower story of the Belvidere building, a substitution of proper heating apparatus for the stoves now in use in several buildings, repairs of ceiling and walls at suburban schools four and seven, a repolishing of the furniture in several rooms, new blackboards in several places.

The committee on school houses and supplies have attended to their trying duties in a commendable manner. I have to thank them for many courtesies.

A comprehensive plan for the relief of the schools on the south side of the river should be devised and put into operation

immediately. An experienced member of your Board has given much and careful study to the subject and it is to be hoped that he will soon present a feasible scheme that will furnish not only sufficient room for our present needs, but provide somewhat adequately for the immediate future. Good schools in fit buildings are an important factor in promoting the growth of a city.

Besides the need of ordinary supplies, there is need of a fresh supply of new supplementary reading matter. Much of that at present in stock is worn out or stale.

HIGH SCHOOL.

The number of pupils enrolled in this school at the beginning of the Fall term was larger than for several years. The fact that more pupils than usual returned for the second and third year work is gratifying and speaks much for the management of the school. It seemed at one time as if the room on the second floor, occupied by a grammar grade, must be taken for the school, but by rearrangement this difficulty was overcome. If the school continues growing, and the probability is all that way, the demand for that room and consequently for another grammar grade room becomes imperative.

About three years ago the committee on Spring Street school, after due deliberation, formulated some rules relating to marking pupils and to graduation. By inadvertence those rules were not adopted by the Board of Education. I would recommend that those or similar rules be now adopted.

The improvement in the physical laboratory has proved a profitable investment. A sum of two hundred dollars would add greatly to the value of the apparatus now in use and I recommend that the principal of the school be allowed to expend that sum for additions and improvements.

I am so confident of the advantages to all concerned of one session a day in the High school that I urge strenuously at least a trial during the Spring term.

A change was made in the graduating exercises of this year, a prominent speaker delivering the principal address and the class being represented by a few members. A continuance of this plan is recommended.

OTHER DAY SCHOOLS.

No radical change has been made in the plan or management of these schools. An attempt is making to develop carefully a detailed outline for each subject taught in accordance with the present course of study. This will probably occupy two years at least. A course of study is never finished but ever under criticism and correction.

There is need of and a general demand by teachers for a language book in the lower grades. I suggest that the committee on text books be asked to look into the matter and recommend a suitable book or series of books.

The plan for promotions in grades below the High school adopted in 1891, had its first trial. The reports are favorable. Forty non-promoted pupils took the optional examination given by the superintendent and in each case fell below the mark given by the teachers. This is good evidence that the judgement of the teachers is reliable in this matter.

A desirable advance would be to indicate marks by letters symbolizing *excellent*, *good*, *fair*, *poor*, *unsatisfactory* and to keep at the teacher's desk a monthly proficiency sheet for ready reference by those who would have a right to see it.

Graded schools have one serious defect—the tendency to neglect the individual. In the Nashua schools the readjustments of pupils, or promotions, are made yearly. Non-promotion means the loss of a year. I would ask that the re-grading of pupils take place at least twice a year, three times would be better. Most rooms have now two divisions and by a sort of emphasis of this plan. I believe a practicable method of operation may be devised. This is not the place for discussion of details. I earnestly hope that your board

will adopt some way to lessen the evils and hardships of non-promotions. I do this in the interest of higher, not lower, standards.

During the past two years there has been an increasing number of irregular promotions. To "skip" a half year, however, means a gap. Let us have a system. For the third time I recommend a general grade as a help to those who unfortunately have to be out of school and find difficulty in keeping up to the standard in the grade to which they seem to belong.

Another defect that requires speedy remedy is the crowding and double grading in the primary grades. No teacher, for instance, can do justice by nearly seventy pupils doing the work of grades two and three. There is no economy in it, except of money.

I have here for your inspection but not worth publication some statistical tables, one of attendance for twenty two years, another of average ages of pupils in the different grades made in November, 1891 and 1892, still another of the number of hours a week devoted to each study in each grade, made in May, 1892. It is interesting to note that the daily attendance for 1892 was the largest on record. The per cent. attendance, 92.3, was exceeded but once, in 1887, when it was 92.6. In 1886 it was the same, 92.3, as in 1892.

It is found that the average age of pupils in our first grades is 6 years, 6 months. What a saving of time if we could get these children two years earlier as in the German kindergarten or the French maternal school! The average of Grade IX pupils is 14 years, 7 months. The average ages in the classes of the High school are 15 years, 8 months, 16 years, 4 months, 17 years, 3 months, 18 years, 1 month. While these statistics, on account of exceptional cases, are not wholly reliable as premises for reasoning, it would seem that our pupils are not so much over age as we had imagined.

It should make us doubly careful and strenuous in our efforts to help our primary school children to know that of the

2050 pupils in school November 7, 1892, 925 were in the first three grades.

The general discipline of the schools is fully as good as last year. The standard has changed in late years. A martinet is no longer at a premium. Stiffness and deathly stillness are not ends. Attention to duty and indications of happy industry are now criteria.

There are a few rooms in which the teachers do not seem to have the power to hold pupils up to their work.

There were reported for the year ending June 24, seventy-two cases of corporal punishment, from September to the present time, twenty-four cases. The following report relating to corporal punishments is made to the superintendent.

DEPARTMENT OF PUBLIC SCHOOLS.

What seems to be the immediate effect of the punishment?	
Remarks:—	

Teacher.

☞ This blank, properly filled, must be sent to the Office of the Superintendent of Schools, AS SOON AS POSSIBLE, after the punishment.

While the suburban schools are in better condition than last year, I believe as was suggested by a member of your board that to bring pupils of schools of fewer than ten members into the city schools would result beneficially. I quote from Massachusetts report for 1890-91.

"There are two advantages resulting from the employment of the system that are worthy of thoughtful consideration by the towns maintaining a number of small schools. One relates to economy in supporting the schools, the other to efficiency in their administration. Economy will be secured by reducing the number of schoolhouses to be built, furnished, repaired and kept in running order, and by reducing the number of teachers that must be employed. Efficiency will result from the employment of more skilled teachers, from an increase in the length of the school year, from better school buildings, from more ample means of instruction, and from bringing the schools under a more easy system of supervision. The plan of uniting the small schools of the towns into larger ones is growing in favor, and, on account of advantages, will, in the future, without doubt, be generally adopted."

There has been no deterioration but rather an improvement in methods of teaching in our schools. We have by no means arrived at perfection but I believe our teachers are headed the right way. At the opening of the Fall term the teachers started into the work enthusiastically, intelligently and quickly. The Winter term has opened in as satisfactory a manner.

Perhaps the most important phase of a superintendent's duties is the work done with the teachers. I repeat my thanks to the teachers of Nashua for continued loyalty, sympathy and industry. They all attended the Institute at Milford, very many more teachers went from Nashua to the State Association at Plymouth than from any place in the state. The Teachers' Club continues to prosper and is helpful. A voluntary class of nearly fifty for the study of psychology has been formed. By the generosity of your Board, speakers from abroad have addressed our meetings. Following is a list of

the meetings held and the teachers have attended with apparent pleasure:

1892. Jan. 5. General meeting, with Superintendent.
 6. Grade I. Language, " "
 8. " " " " "
 26. " " " " "
 Feb. 2. " " " " "
 9. " II and III. Language, with Superintendent,
 Mar. 7. " IV and V. Language, with Superintendent.
 8. Grades VI and VII. Language, with Superintendent.
 9. Grades VIII and IX. Language, with Superintendent.
 14. General meeting, with Superintendent.
 Apr. 26. Superintendent Bates of Lawrence on "Ideal Teachers,"
 May 3. Miss S. E. Brassill of Quincy on "Nature."
 18. Miss Anna Hill of Springfield on "Writing."
 June 10. Mr. H. T. Bailey of Massachusetts on "Training the Taste."
 13. General meeting, with Superintendent.
 Sept. 27. " " " "
 28. Hartvig Nissen of Boston. Swedish gymnastics.
 30. Hartvig Nissen of Boston. Swedish gymnastics.
 Nov. 2. General meeting, with Superintendent.
1893. Jan. 5. General meeting, with Superintendent.
 7. Miss E. M. Reed of Springfield, "Arithmetic."

We have lost several good teachers, but I feel that the work has suffered little detriment. The question of questions is: How shall we furnish our schools good teachers in sufficient numbers? The training class does what it can. The four young ladies composing the class last year are now suc-

reeding admirably in schools of their own. This year the class consists of eight members. But the training here is too desultory and unsystematic. I have with much labor worked up lessons for the class, given it all the time possible. We need a training school. Why not have one?

Another question: How can we induce the young women who intend to teach to attend our excellent State Normal School?

The following rules in relation to teachers have been adopted. It is certain that a strict adherence to them will bring more satisfactory results than our former customs.

TEACHERS.

I. CERTIFICATES.—An examination for teachers' certificates shall be given by the committee on teachers, assisted by the Superintendent, on the third Saturday in April. The results of this examination shall be announced and certificates granted to applicants receiving a mark of seventy-five at the regular April meeting of the Board of Education.

Certificates to teach shall not be granted to any persons under the age of eighteen years or to any pupils of the High school while attending that school.

No person shall be allowed to teach as a regular or substitute teacher without a certificate from the Board of Education, or a satisfactory equivalent to be determined by the committee on teachers.

II.—RECOMMENDATIONS BY THE COMMITTEE ON TEACHERS.—Not later than the middle of the Spring Term, the committee on teachers shall meet to consider recommendations to the Board of candidates for teachers' positions.

It shall be the duty of the members of the committee on teachers, the members of the sub-committee on the various schools and the Superintendent to visit each school at least once during each term, and a report of such visits, accompa-

nied by suggestions or recommendations from these committees and the Superintendent shall be made to the committee on teachers at the aforesaid meeting.

An intention on the part of the committee on teachers not to recommend a teacher already in the service shall be communicated to such teacher in writing on or before the first day of June.

III. ELECTION.—The teachers shall be chosen annually and their salaries voted at the regular meeting in June. All teachers who do not signify a desire to the contrary shall be deemed candidates for re-election.

IV. TIME OF SERVICE.—Teachers elected at the annual election shall serve for one year from the first day of July following, unless sooner removed.

V. ACCEPTANCE OF ELECTION.—Teachers elected shall be notified immediately by the clerk in writing of the election, the time, salary and probable school being indicated, and the failure of any teacher so notified to accept in writing such position and terms within ten days after such notice is received shall be deemed a declination of the election and at a subsequent meeting of the Board another teacher shall be elected to the position indicated.

VI. CHANGE OF ASSIGNMENT.—The committee on teachers with the Superintendent shall have the right to make or change assignments of teachers below the High school as the exigencies of the service may require.

VII. TEACHERS TO SERVE ON TRIAL.—No person shall be permanently appointed a teacher without serving at least twelve weeks, and unless the Board, upon favorable report of the committee on teachers and the Superintendent, confirm the appointment. The Board, upon recommendation of the committee on teachers, may make exception in the case of efficient and experienced candidates, and elect them to permanent positions without appointment on trial.

VIII. SUBSTITUTES, HOW APPOINTED.—Substitutes to fill

temporary vacancies shall be appointed by the Superintendent, subject to the approval of the proper committee or the Board.

IX. **TEACHERS HAVING TO GIVE NOTICE.**—No permanently elected teacher shall withdraw from or leave school before the expiration of the year for which elected, except by consent of the Board, without first giving the clerk a four weeks' notice of such intent: nor shall any such teacher leave school at any other time than at the expiration of a school month under penalty of forfeiting a month's salary, which penalty the Superintendent in making up his pay roll shall enforce.

X. **SALARIES.**—Salaries shall be fixed in accordance with the plan regularly adopted by the Board but in special cases and upon recommendation of the Committee on Teachers, salaries other than those in the schedule may be voted.

In fixing salaries, superior ability and experience in teaching, wherever acquired, may be considered.

XI. **MUSIC DIRECTOR.**—The committee on music shall nominate for election by the Board a director of music, specifying the salary recommended.

XII. **DRAWING DIRECTOR, ETC.**—The committee on drawing shall nominate for election by the Board a director of drawing, specifying salary recommended. This committee shall also appoint the assistants at the evening drawing schools and fix their salaries.

XIII. **EVENING SCHOOL TEACHERS.**—The committee on evening schools shall appoint the principals and teachers for these schools and fix their salaries.

XIV. **INCONSISTENT PARTS OF RULES TO BE NULL AND VOID.**—Any part or parts of the Rules and Regulations of the Board inconsistent with the foregoing rules are hereby made null and void.

J. E. TOLLES, Clerk.

Adopted Dec. 28th. 1892.

POINTS WORTHY OF CONSIDERATION.

Shall salary be determined by quantity or quality of service?

Shall trained teachers be demanded?

Shall experience (successful) be required of candidates?

Is there any constant and sure source of supply of teachers other than a permanent training school, founded on a firm and approved basis?

These points are not incorporated into these rules. I sincerely hope they may be.

WORLD'S FAIR EXHIBIT.

A collection of such school work as can be put upon paper, intended as a part of the New Hampshire Educational Exhibit at the World's Fair, is nearing completion. The papers will be bound and sent in book form. The aim has been to make an *honest exhibit* of our *regular school work*, interfering as little as possible with routine duties.

EVENING SCHOOLS.

All pupils under sixteen must now attend *day* school. The evening schools opened in November upon a new plan. The enrollment is more than 120, the attendance from 70 to 80 per cent. Here are men and women earnestly striving for an education. I believe that with this year's experience, hereafter we can provide evening schools that will be an honor to the city. I wish we might arrange for a permanent corps of teachers.

The following is the plan:

NASHUA EVENING SCHOOL—FALL OF 1892.

PLACE—A free evening school for the instruction of both sexes in subjects to be enumerated shall be opened in Main Street

school building, the number of rooms to be determined by the necessities of the school.

CONTROL.—The school shall be under the direct control and supervision of the Committee on Evening Schools, and the superintendent, who shall make such regulations for the maintenance and improvement of the school, as they deem well.

LESSONS.—The school shall open (date) and close (date), sessions being held on Monday, Tuesday, Wednesday, Thursday and Friday evenings of each week, from seven until nine o'clock.

The teaching force shall consist of one male principal, who shall have time and opportunity to inspect and supervise all work in his charge and who shall be responsible for the building, supplies and the general administration of the school, with as many male assistants as the interests of the school seem to require, these assistants to be directly responsible to the principal. These teachers shall be appointed by the Committee on Evening Schools, who shall determine the salaries to be paid to each.

ADMISSION OF PUPILS.—Pupils, who must be at least sixteen years of age, shall make application for admission to the principal, who shall assign pupils to the proper classes and who may transfer any pupil to a different class at his discretion.

DEPOSIT.—After admission, pupils shall deposit with the principal, at the time of registration, as a guarantee of good faith and reasonably constant attendance, the sum of one dollar. At the end of the school term this deposit shall be returned to those pupils, who, in the judgment of the proper officers, merit it.

NO FEES.—Use of building, books and supplies of any sort required by the school shall be free to pupils, who may, however, have the privilege of purchasing books of the principal at cost.

RULES.—The school shall be governed in accordance with

the general regulations of the Board of Education for the public schools and such special provisions as may be adopted from time to time by the Committee on Evening Schools, the superintendent or principal.

AIM OF SCHOOL.—The aim and purpose of the school shall be to furnish pupils with a sound knowledge of the studies pursued and to inculcate and foster the spirit of education and good citizenship, to the end that all pupils may have a motive and incentive to advancement in learning and self-culture. Special effort shall be made by the instructors to employ such means and methods as are best calculated to accomplish the end and purpose in view.

GRADES.—The school shall be divided into three grades, the assignment and classification of pupils being left to the principal.

The curriculum, which may be amended or revised as circumstances require, shall be substantially as follows :

GRADE I.

The elements of Arithmetic to Percentage, (special stress to be laid upon accuracy and speed in the fundamental processes), Common and Decimal Fractions, United States Money.

In English Language the parts of speech, use of capitals and punctuation marks, letter writing, oral and written abstracts and reproductions of matter read in class and such other work as will lead to a clear conception and expression of ideas. Common errors of speech, corrected reading from the ordinary reading books and such other selections of historical, geographical, practical or literary value as may be best adapted to the pupils. Thorough drill in penmanship.

GRADE II.

Arithmetic, Bills and Receipts, Percentage and its application, simple interest to be thoroughly taught. Frequent mental

and written exercises in rapid work in the elements of Arithmetic as a review.

ENGLISH LANGUAGE, same as Grade I, with the addition of the simple sentence subject, predicate and modifiers of each.

READING.—Selections from best American authors, United States History briefly but carefully to civil war.

Geography of America to be taken in conjunction with the study of United States history.

Thorough drill in penmanship.

GRADE III.

ARITHMETIC.—Review of Interest, Notes, Discount, true, bank and commercial, Profit and Loss, Drafts and general practical business arithmetic. Frequent drill in elements as in other grades.

The elements of book-keeping.

ENGLISH LANGUAGE.—Analysis of easy sentences and general work as in preceding grades. Special attention to business correspondence, United States History to present time, civil government, study of the constitution of the United States and the general features of the town, city, county and state governments.

Reading from American authors.

Thorough drill in Penmanship.

(Typewriting as a possibility.)

NOTE.—The effect of this course will depend almost entirely upon the teachers employed. The topics are largely suggestive. It is not necessary that all these subjects be studied each evening, but a programme should be made for each session and a due proportion of the whole term be given to each subject.

Pupils shall be given as much special attention as their individual needs demand and the time of the instructor will allow. Pupils may, on account of different attainments, recite in various classes.

This course is not to be regarded as a rigid fixture. Certificates for the work actually accomplished may be granted by the principal.

CHILD LABOR.

Special effort has been made to enforce the law relating to employment of child labor. Deception as to age becoming frequent, in doubtful cases the parent is required to furnish satisfactory proof of the child's age. The following form is used in issuing certificates :

No.....

SPECIAL DEPARTMENTS.

Although a special instructor in physical culture is no longer employed, systematic drill is going on in this department. The work is fully up to our standard and is carried through all the grades.

A special director of drawing has been in our schools since September. No revolutionary measures have been adopted. Emphasis is laid on the fact that drawing is a means of expressing thought. Work is planned for the various grades. The director has been well trained and it is certain that good results must follow her intelligent efforts. In the evening drawing schools, there are twenty-four pupils. A fee of two dollars is imposed upon each pupil, returnable at the end of the term for good attendance. While the enrollment is not so large as formerly, the average attendance is greater.

The report of the director follows this report.

In the department of music the results of the hard work of our director are showing. Words of mine are not needed here. I refer you to his report and claim that if there is better music in this region, I have never heard it. Anybody who saw the curtain raised on the evening of June 17 at the theatre, disclosing the magnificent picture of nearly a thousand children ready to participate in a grand *musicale*, and

then listened to the grand and beautiful music so well rendered, will no longer doubt the value of music in our schools. The concert was an eminent success.

As a final recommendation I would suggest that all reports of superintendents be referred to a special committee and that these annual reports follow the spring term.

Gentlemen, in closing, I beg to say that I have not attempted "fine writing" or striven for "glittering generalities," but have tried to speak of the school department as it is and to offer such suggestions as I believe should be acted upon.

I wish to heartily thank all connected with the schools of Nashua for kindness, sympathy, support and loyalty to the schools and to your Superintendent.

Respectfully submitted.

FRED GOWING, Superintendent.

Feb. 23, 1893.

REPORT OF DIRECTOR OF MUSIC.

NASHUA, N. H., Jan. 25, 1893.

Mr. Fred Gowing, Superintendent of Schools:

Dear Sir:—This, my third annual report, necessarily deals with growth of method, matter, pupil, teacher and director.

In September, 1890, instruction in vocal music was undertaken in our schools, in the light and on the lines of the new education, and from that day to this there has been no deviation in the work. In so doing, the old methods were not overthrown, the new were simply introduced. Classes already working on the old lines were not suddenly faced about to the discouragement of the pupils, but were quietly and unconsciously led into the new. The eye has been trained as well as the ear; the intellect has been developed with the training of the eye; music has been studied as a science as well as practiced as an art, and today Nashua can point to her schools with a just and honest pride in what they have accomplished in this line, not only for themselves, but for the world at large.

The little town of Quincy, Mass., gave to the public schools of America an impetus in educational matters that in the past few years has literally extended from the Atlantic sea board to the Pacific slope, and from the great lakes to the Gulf of Mexico.

The work that Nashua has accomplished in the past two years in the line of elementary instruction in sight singing, is already attracting the attention of educators, and the method of instruction which your teachers and director have been instrumental in investigating, introducing and developing in the first three years of the child's school life will grow. It may be called the Nashua system. Inductive Sight Song, or be known by any other name that you may be pleased to term

it. Nashua as the place of its inception may be forgotten, and the name of your director in connection therewith become unknown; but the idea, its underlying principle that the *eye* and not the ear in elementary instruction in sight singing, is the avenue par excellence to the mind, will live and grow, until by one name or another it shall be so recognized from the metropolis to its veriest suburb.

The advancement of such a theory may be received by the uninitiated in educational matters with the derision that would have been accorded its advancement ten years ago by the educator. Today, however, when we ask the ear to wait upon the eye in sight song, we arrest the attention of thoughtful men. Attention leads to investigation: investigation leads to the class room, and in our class rooms the most sceptical must stand convinced.

CRITICISM ACCORDED.

Much might be said of the willing and unwilling commendation that our classes have received at the mouth of investigators. The following from a prominent student of educational methods, who spends much time among the public schools of New England in the prosecution of his investigations may suffice:

"Your method of instruction in sight singing," he says, "was so entirely new to me, and I was so conversant with the traditional schemes, that it was with an unconscious prejudice that I accompanied you to the class room.

"From what you had told me of the work, I was prepared to find a certain familiarity on the part of the children with the notation, but I expected the work to disclose the fact that such familiarity had been gained at the sacrifice of those finer musical impulses in which the traditional methods of development have been regarded as especially strong.

"On the contrary I was surprised not only at their great

familiarity with the notation, but as well at the remarkable degree to which the musical feelings had been developed.

"I was particularly struck with three things: The almost irresistible disposition of the class to complete all rhythms; the wonderful childlike softness of the voices—beautiful beyond compare in tone color with anything of the kind it has been my privilege to hear; and the enthusiasm—musical, not physical enthusiasm of the little singers."

Surely here we have empiricism and science combined.

MUSIC NOT A FAILURE.

It has been well said that "the staff notation is the most beautiful symbol that ever was evolved. Nothing can rival or replace it. Once the ear and eye are equally trained, all the powers seem to work through its mediumship as one. No picture that ever was painted can be so beautiful to the eye of a musician, as is a page of score."

But the question is often asked: "Of the millions who study the staff notation, to how many is the picture mentally visible?" The innuendo is well merited, and yet music under any circumstances can never prove a failure, though its exercise be but the whistling modulations of the peasant's untutored breath.

Blest be the song that brightens

The blind man's gloom, exalts the veteran's mirth;
Unscorned the peasant's whistling breath, that lightens
His duteous toil of furrowing the green earth.

For the tired slave, song lifts the languid oar,

And bids it aptly fall with chime,
That beautifies the fairest shore,
And mitigates the hardest clime.

Yon pilgrims see, in lagging file

They move, but soon th' appointed way

A choral Ave Marie shall beguile,
 And to their hope the distant shrine
 Glistens with a livelier ray.
 Nor friendless he, the prisoner of the mine
 Who from the well spring of his own clear breast,
 Can draw and sing his griefs to rest.

Sometimes, however, we hear it affirmed that as taught in public schools, music *is* a failure. Such a statement arises from the simple fact that it is not generally understood, that until within a very short time music has been utilized in school work only as a means of systematic recreation, the study of its notation having mistakenly been regarded as an unimportant incidental. Thus while the statement is not true and arises from an erroneous idea of what the educators until very recently have been trying to accomplish in this line, it is not wholly false, and in the light of today may be regarded as founded in fact.

VOICE CONSERVATION.

Chorus directors often complain that young men and young women who have completed their public school course, and during that period have received instruction—so called—in vocal music as a branch of the work, are unable to use their voices with any degree of satisfaction to themselves or to others. This in a measure is true, and ever will be true until attention is turned from the so called cultivation of the voice of the child, to its *conservation*.

The cultivation of the voice as an instrument; that is, voice training as such, should seldom if ever be undertaken until the voice is matured, and the voice of the child does not mature until about the time such pupil leaves the secondary school.

For twenty-five years and more the voices of our children have been subjected to this so called voice culture in the pub-

lie schools, screaming themselves to death in the process, during which period notation has been but incidentally introduced. This has resulted in the fact that when the serious study of the notation for its own sake has been undertaken in the higher grades, the girls had "already sung their notes away" and the boys entered the period of adolescence. In other words, in the first few years of the child's school life, when possessed of a voice capable of being conserved and exercised upon the notation, notation was withheld or but incidentally introduced, and in the later years of the school work, when by this so called process of cultivation the child had been dispossessed of that "tender, limpid, liquid voice, bright as angel sunshine!" with which he was blessed of God, *then* he is asked to exercise his birthright, which has been ruthlessly torn from his impotent grasp.

This, sir, is why the picture is not mentally visible to the student; this, sir, is why comparatively few of our young men and young women are unable to exercise their voices with any degree of satisfaction to themselves or to others: and, sir, this accounts for the fact that few of the graduates of our High and Grammar schools can with any degree of facility sing a prima vista from the notation.

THE NASHUA SYSTEM.

It has remained for Nashua to preach the glorious gospel of voice conservation and the exercise of that which we conserve upon the notation *at that period of the development of the intellect* when the eye of the child is an open doorway to the soul and the waiting ear is attuned to its celestial song.

We who have long dwelt on this grey old planet of moth rust and corruption, can teach these cherubs who so recently have come to us from the great unknown, but little in the way of song. Their very beings throb with the melody of existence, the harmony of Heaven is in their inmost souls. See, says Shakespeare:

How the floor of Heaven
 Is thick inlaid with patens of bright gold!
 There's not the smallest orb that thou beholdest
 But in his motion like an angel sings,
 Still quiring to the young eyed cherubim!
 Such harmony is in immortal souls,
 But whilst this muddy vesture of decay
 Doth grossly close it in, we cannot hear it.

When man is content to sit at the feet of the child in song, and confine his pedagogical efforts to the development of a knowledge of the printed symbols of that in which the child is already the master of us all, then, and not till then will the greatest possible success attend his labors.

Systems, methods, courses and text books are but devices—incidents and accidents of the work, and will pass away. It is only the child that remains, and it is by the child that Nashua must be measured in elementary instruction in sight song.

With the courage, then, of our convictions, let us labor on in our faith; and like the great workmen of history "believe like giants."

CONCLUSION.

In conclusion I can but express my warm appreciation of the many courtesies and kindnesses which it has been my privilege to receive at the hands of the Board of Education, Committee on Music, Superintendent, Principals, Teachers and the public, since entering upon the duties of the position to which I have the honor to occupy.

I can with another truly say, that:

"The spirit of harmony and [good will with which I was received and which has continued to grow from time to time, has served to lighten my labors and responsibilities. It affords me very great pleasure to acknowledge this generous

support from so many sources. My only anxiety is to prove myself equal to my opportunities and to do the work, with which I am intrusted, in a manner worthy its importance."

Respectfully submitted,

E. W. PEARSON,

Director of Music.

REPORT OF DRAWING TEACHER.

Nashua, January 2, 1893.

Mr. Fred Gowing, Superintendent of Schools:

Dear Sir:—The subject of drawing in the schools has, perhaps, received more regular attention for the past three months than for some years previous.

The course has been somewhat changed, not so much in subject matter as in the order of said matter.

The changes referred to were made possible through the liberality of the committee in granting an excellent supply of wooden models for all the schools in the city.

All the changes have met with the hearty cooperation of the teachers, to whom I wish to extend my sincere thanks.

The course in the evening drawing school opened somewhat later than usual. The classes are very small, but the regular attendance and interest shown bid fair to produce creditable results.

There are three instructors: Messrs. D. H. Melendy, H. B. Burley and Miss Kate B. Wentworth.

It is to be hoped that the creditable work done in drawing thus far this year is but the beginning of a steady advance in the subject which shall leave the schools of Nashua second to none in the state.

Very Respectfully,

KATE B. WENTWORTH.

Director of Drawing.

CITY CLERK'S OFFICE, }
CITY OF NASHUA, N. H., January 2, 1893. }

To Persons having claims against the City:

All persons furnishing materials or service for the City, should be careful to take the name of the person ordering such materials or service, should inquire against what Department the charge should be made, and when there are charges belonging to different Departments **separate bills** should be made, including only charges belonging to each Department. All bills should also be approved by the person or committee authorizing the charges and presented for payment on or before the **last day of each month.**

Unless this is done the bill cannot be properly acted upon by the Finance Committee.

E. M. BOWMAN, CITY CLERK.
